

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES

Transfer No.

83290

MINIMUM REQUIREMENTS CHECKLIST
TO BE SUBMITTED WITH APPLICATION FOR TRANSFER

RECEIVED

MAY 30 2019

Department of Water Resources
Eastern Region

An application for transfer must be prepared in accordance with the minimum requirements listed below to be acceptable for processing by the Department. Incomplete applications will be returned. The instructions, fee schedule, Part 2A reports and additional Part 2B forms are available from any Department office or on the Department's website at idwr.idaho.gov.

Name of Applicant(s) City of Ammon

Check whether each item below is *attached* (Yes) or *not applicable* (N/A) for the proposed transfer.

Yes N/A * Means the item is always required and must be included with the application.

- ☒ * Completed Application for Transfer of Water Right form, Part 1.
- ☒ * Signature of applicant(s) or applicant's authorized representative on Application for Transfer Part 1. Include evidence of authority labeled Attachment #3 (see below) if signed by representative.
- ☒ * Application for Transfer Part 2A. Attach a [Part 2A](#) report describing each water right in the transfer as currently recorded.
- ☐ ☒ Complete and attach an Application for Transfer [Part 2B](#) for each water right for which only a portion is proposed to be changed through this transfer application.
- ☒ * Application for Transfer Part 3A is always required (see Attachment #7a below); Parts 3B and 3C must be completed for transfer applications proposing to change the nature of use of the water right(s) or proposing changes to supplemental right(s).
- ☒ * Correct fee submitted with transfer application form. ([Fee schedule](#) is on website and instructions for application for transfer.)

Attachments to Application - Label each attachment with the corresponding number shown below as Attachment #1-10.

- ☐ ☒ #1 If the applicant is a business, partnership, organization, or association, and not currently registered in the State of Idaho as a business entity, attach documentation identifying officers authorized to sign or act on behalf of right holder. (See Part 1.)
- ☐ ☒ #2a Water Right ownership documentation if Dept. records do not show the applicant as the current water right owner. **
- ☐ ☒ #2b If the ownership of the water right will change as a result of the proposed transfer to a new place of use, attach documentation showing land and water right ownership at the new place of use. Include documentation for all affected land and owner(s). **
** Additional fee(s) required for water right ownership changes; see fee schedule.
- ☐ ☒ #3 Documentation of authority to make the change if the applicant is not the water right owner.
- ☐ ☒ #4 Power of Attorney or documentation providing authority to sign or act on the applicant's behalf. (See Part 1.)
- ☒ ☐ #5 If the transfer application proposes to change the point of diversion for a water right affecting the Eastern Snake Plain Aquifer (ESPA), attach the results of an ESPA analysis and a detailed mitigation plan to offset any depletions to hydraulically connected reaches of the Snake River. ESPA transfer spreadsheet and model grid labeled cells are available on the Department's website at idwr.idaho.gov/water-rights/transfers/resources.html.
- ☐ ☒ #6 Notarized statement of agreement or a statement on official letterhead signed by an authorized representative from each lien holder or other entity with financial interest in the water right(s) or land affected by the proposed transfer. (See Part 1.5.c.)
- ☒ * #7a Attach a map identifying the proposed point(s) of diversion, place(s) of use, and water diversion and distribution system details as described on the application. Include legal description labels. If only a portion of the right is proposed to be changed, identify the current location of the part of the existing right(s) proposed to be changed. (See Part 3A.)
- ☒ ☐ #7b If the transfer application proposes to change the place or purpose of use of an irrigation right attach a Geographic Information System ([GIS](#)) shape file, or an aerial photo or other image clearly delineating the location and extent of existing acres and changes to the place of use. If some or all of any right is leased to the Water Supply Bank, you must also show the the specific location and/or acres to be idled at the new, proposed place of use to satisfy lease requirements.
- ☐ ☒ #8a If the transfer application proposes to change the nature of use or period of use for one or more rights, provide documentation describing the extent of historic beneficial use for the water rights proposed to be transferred and document how enlargement will be avoided. (See Part 3B.) Additional fee required for proposed changes to nature of use; see [fee schedule](#).
- ☐ ☒ #8b If the transfer application proposes to change the place of use of a supplemental irrigation right, provide documentation regarding the historic use of the supplemental right(s) and availability or reliability of the primary right(s) being supplemented, both before and after the proposed change. (See Part 3C.)
- ☐ ☒ #9 Water Supply Bank information for all rights proposed for transfer and currently leased to the Bank. ([Attachment WSB](#))
- ☒ ☐ #10 Other. Please describe: IDWR printout showing that test well was drilled under Tag No. D0080417.

APPLICATION FOR TRANSFER OF WATER RIGHT PART 1

Name of Applicant(s) City of Ammon Phone (208) 612-4000
Mailing address 2135 S. Ammon Rd., Ammon, ID 83406 Email frontofficefax@ci.ammon.id.us

- ☐ If applicant is not an individual and not registered to do business in the State of Idaho, attach documentation identifying officers authorized to sign or act on behalf of the applicant. Label it **Attachment #1**.
- ☐ Attach water right ownership documentation if Department records do not show the transfer applicant as the current water right owner. Label it **Attachment #2a**.
- ☐ If the ownership of the water right will change as a result of the proposed transfer to a new place of use, attach documentation showing land and water right ownership at the new place of use. Include documentation for all affected land and owner(s). Label it **Attachment #2b**.
- ☐ Attach documentation of authority to make the proposed change if the applicant is not the water right owner. Label it **Attachment #3**.

Provide contact information below if a consultant, attorney, or any other person is representing the applicant in this transfer process.

☐ No Representative

Name of Representative Robert L. Harris Phone (208) 523-0620
Mailing address P.O. Box 50130, Idaho Falls, ID 83405 Email rharris@holdenlegal.com

☐ Send all correspondence for this application to the representative and not to the applicant.

OR

☒ Send original correspondence to the applicant and copies to the representative.

☒ The representative may submit information for the applicant but is not authorized to sign for the applicant.

OR

☐ The representative is authorized to sign for the applicant. Attach a Power of Attorney or other documentation providing authority to sign for the applicant and label it **Attachment #4**.

I hereby assert that no one will be injured by the proposed changes and that the proposed changes do not constitute an enlargement in use of the original right(s). The information contained in this application is true to the best of my knowledge. I understand that any willful misrepresentations made in this application may result in rejection of the application or cancellation of an approval.

A. PURPOSE OF TRANSFER

1. ☐ Change point of diversion ☒ Add diversion point(s) ☐ Change place of use
☐ Change nature of use ☐ Change period of use ☐ Other _____

2. Is this a transfer for changes pursuant to [Idaho Code § 42-221.0.8](#)?
If yes, ☐ attach an explanation and any supporting documentation labeled as **Part 1A.2**.

3. Describe your proposal in narrative form, including a detailed description of non-irrigation uses to justify amounts transferred (i.e. number of stock, etc.), and provide additional explanation of any other items on the application. Attach additional pages if necessary and label it **Part 1A.3**.

The City of Ammon is proposing to add a new well location to its existing water rights to authorize construction of a new municipal well with a designed diversion rate of 2,600 gpm (5.8 cfs).

DEPARTMENT OF WATER RESOURCES

APPLICATION FOR TRANSFER OF WATER RIGHT
PART 1 Continued

5. General Information:

- a. Describe the complete diversion system, including how you will accommodate a measuring device and lockable controlling works should they be required now or in the future:

Well and pump into municipal city system. New well and pump construction will include authorized measuring device and lockable controlling works.

- b. Who owns the property at the point(s) of diversion? Liberty Homes & Development LLC

If other than the applicant, describe the arrangement enabling the applicant to access the property for the diversion system:
See attached form consent. Signed consent will be signed and submitted.

- c. Are the lands from which you propose to transfer the water right subject to any liens, deeds of trust, mortgages, or contracts?

If yes, ☐ attach a notarized statement from the holder of the lien, deed of trust, mortgage or contract agreeing to the proposed changes on official letterhead signed by an authorized representative. Label it **Attachment #6**. List the name of the entity and type of lien: _____

It is the applicant's responsibility to provide notice to lien holder, trustee, mortgagor, or contract holder of the proposed changes that may impact or change the value of the water rights or affected real property. Any misrepresentation of legal encumbrance on this application may result in rejection of the application or cancellation of an approval.

- d. Are any of the water rights proposed for transfer currently leased to the Water Supply Bank?

If yes, ☐ complete Attachment WSB.

- e. Describe the effect on the land now irrigated if the place or purpose of use is changed pursuant to this transfer:

N/A

- f. Describe the use of any other water right(s) for the same purpose or land, or the same diversion system as right(s) proposed to be transferred at both the existing and proposed point(s) of diversion and place(s) use:

Only those rights identified on the attached spreadsheet are for the City of Ammon's municipal use.

- g. To your knowledge, has/is any portion of the water right(s) proposed to be changed:

Yes No

- ☐ ☒ undergone a period of five or more consecutive years of non-use,
☐ ☒ currently leased to the Water Supply Bank,
☐ ☒ currently used in a mitigation plan limiting the use of water under the right, or
☐ ☒ currently enrolled in a Federal set-aside program limiting the use of water under the rights?

If yes, describe:

_____, 2019

To: Idaho Department of Water Resources

From: Liberty Homes & Development LLC

Subject: City of Ammon Water Rights Transfer (Water Right Nos. 25-4294, 25-4295, 25-4297, 25-7023, 25-7168, 25-7498, 25-7634, 25-13964, 25-14331, 25-14333, 25-14386, 25-14384, 25-14380, 25-14396, 25-14397, 25-14405, 25-14406, 25-14381).

Liberty Homes & Development LLC ("Liberty") recently acquired property located in the NESE of Section 2, Township 01N., Range 38E., from Bonneville Joint School District #93. The City of Ammon ("Ammon") has drilled a successful test well on this property, and desires to add this well location as an authorized point of diversion for the diversion of water from a new production well under Ammon's water rights. The location of this well production well location is depicted on the map on the following page.

We have no objection to Ammon's application for water rights transfer to include Liberty's property as an authorized point of diversion for the diversion of water under Ammon's water rights. We understand that the water rights subject to the water rights transfer will remain in Ammon's name, and that Ammon is not transferring title to the water rights to Liberty. We also understand that the amendment of Ammon's water rights relates only to the water rights, and the actual use of Liberty's property for the well will be subject to a future agreement being discussed between Ammon and Liberty and/or acquisition of the property for the new well.

Conditions of Approval:

83290

1. T08 Failure of the right holder to comply with the conditions of this transfer is cause for the Director to rescind approval of the transfer.
2. 046 Right holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code and applicable Well Construction Rules of the Department.
3. Construction of a replacement well at the location of an existing point of diversion is not authorized unless the water right holder: (1) limits the diversion flow rate from the replacement well to the flow rate authorized by the water right for the existing well prior to the approval of transfer no. 72881; or (2) obtains approval for the replacement well through an application for transfer.
4. T19 Pursuant to Section 42-1412(6), Idaho Code, this water right is subject to such general provisions necessary for the definition of the rights or for the efficient administration of water rights as may be determined by the Snake River Basin Adjudication court at a point in time no later than the entry of the final unified decree.
5. T07 The right holder shall accomplish the change authorized by this transfer within five years of the date of this approval.
6. This water right is subject to all prior water rights and shall be administered in accordance with Idaho law and applicable rules of the Department of Water Resources.
7. R05 Use of water under this right will be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 120.
8. After specific notification by the department, the right holder shall report daily measurement data to the department.
9. Diversion and use of water under this right from the additional wells authorized under Transfer no. 72881, located in NWSW, Section 34, Township 02 North, Range 38 East and the NENW, Section 25, Township 02 North, Range 38 East, shall be subordinate to all ground water rights existing within the immediate area prior to the date of approval of this transfer upon determination of injury due to local well interference. The water rights transferred by Transfer no. 72881 retain their priority dates relative to all other actions to distribute water.
10. These water rights are from connected sources of water in the Snake River Basin and shall be administered conjunctively.
11. 004 This right does not grant any right-of-way or easement across the land of another.
12. Prior to diversion and use of water under this right, the right holder shall install a totalizing measuring device of a type approved by the department on each point of diversion to measure the volume of water diverted. The measuring devices shall be read and recorded on a daily basis.
13. 172 The boundary encompassing the place of use for this water right is described with a digital boundary as authorized by Idaho law. The data comprising the digital boundary are stored in the electronic document management system of the Department and are incorporated into this approval by this reference. A map depicting the place of use is attached to this approval document to illustrate the place of use described by the digital boundary.

Place(s) of use: [Large POU Info](#)

Conditions of Approval:

83290

1. 172 The boundary encompassing the place of use for this water right is described with a digital boundary as authorized by Idaho law. The data comprising the digital boundary are stored in the electronic document management system of the Department and are incorporated into this approval by this reference. A map depicting the place of use is attached to this approval document to illustrate the place of use described by the digital boundary.
2. Prior to diversion and use of water under this right, the right holder shall install a totalizing measuring device of a type approved by the department on each point of diversion to measure the volume of water diverted. The measuring devices shall be read and recorded on a daily basis.
3. After specific notification by the department, the right holder shall report daily measurement data to the department.
4. R05 Use of water under this right will be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 120.
5. T07 The right holder shall accomplish the change authorized by this transfer within five years of the date of this approval.
6. T08 Failure of the right holder to comply with the conditions of this transfer is cause for the Director to rescind approval of the transfer.
7. T19 Pursuant to Section 42-1412(6), Idaho Code, this water right is subject to such general provisions necessary for the definition of the rights or for the efficient administration of water rights as may be determined by the Snake River Basin Adjudication court at a point in time no later than the entry of the final unified decree.
8. 004 This right does not grant any right-of-way or easement across the land of another.
9. These water rights are from connected sources of water in the Snake River Basin and shall be administered conjunctively.
10. This water right is subject to all prior water rights and shall be administered in accordance with Idaho law and applicable rules of the Department of Water Resources.
11. 046 Right holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code and applicable Well Construction Rules of the Department.
12. Diversion and use of water under this right from the additional wells authorized under Transfer no. 72881, located in NWSW, Section 34, Township 02 North, Range 38 East and the NENW, Section 25, Township 02 North, Range 38 East, shall be subordinate to all ground water rights existing within the immediate area prior to the date of approval of this transfer upon determination of injury due to local well interference. The water rights transferred by Transfer no. 72881 retain their priority dates relative to all other actions to distribute water.
13. Construction of a replacement well at the location of an existing point of diversion is not authorized unless the water right holder: (1) limits the diversion flow rate from the replacement well to the flow rate authorized by the water right for the existing well prior to the approval of transfer no. 72881; or (2) obtains approval for the replacement well through an application for transfer.

Place(s) of use: [Large POU Info](#)

Conditions of Approval:

83290

1. T19 Pursuant to Section 42-1412(6), Idaho Code, this water right is subject to such general provisions necessary for the definition of the rights or for the efficient administration of water rights as may be determined by the Snake River Basin Adjudication court at a point in time no later than the entry of the final unified decree.
2. R05 Use of water under this right will be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 120.
3. 004 This right does not grant any right-of-way or easement across the land of another.
4. Construction of a replacement well at the location of an existing point of diversion is not authorized unless the water right holder: (1) limits the diversion flow rate from the replacement well to the flow rate authorized by the water right for the existing well prior to the approval of transfer no. 72881; or (2) obtains approval for the replacement well through an application for transfer.
5. 172 The boundary encompassing the place of use for this water right is described with a digital boundary as authorized by Idaho law. The data comprising the digital boundary are stored in the electronic document management system of the Department and are incorporated into this approval by this reference. A map depicting the place of use is attached to this approval document to illustrate the place of use described by the digital boundary.
6. 046 Right holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code and applicable Well Construction Rules of the Department.
7. Prior to diversion and use of water under this right, the right holder shall install a totalizing measuring device of a type approved by the department on each point of diversion to measure the volume of water diverted. The measuring devices shall be read and recorded on a daily basis.
8. Diversion and use of water under this right from the additional wells authorized under Transfer no. 72881, located in NWSW, Section 34, Township 02 North, Range 38 East and the NENW, Section 25, Township 02 North, Range 38 East, shall be subordinate to all ground water rights existing within the immediate area prior to the date of approval of this transfer upon determination of injury due to local well interference. The water rights transferred by Transfer no. 72881 retain their priority dates relative to all other actions to distribute water.
9. After specific notification by the department, the right holder shall report daily measurement data to the department.
10. T08 Failure of the right holder to comply with the conditions of this transfer is cause for the Director to rescind approval of the transfer.
11. T07 The right holder shall accomplish the change authorized by this transfer within five years of the date of this approval.
12. This water right is subject to all prior water rights and shall be administered in accordance with Idaho law and applicable rules of the Department of Water Resources.
13. These water rights are from connected sources of water in the Snake River Basin and shall be administered conjunctively.

MUNICIPAL Use:

Acre Limit: 15

Place(s) of use: Large POU Info

Conditions of Approval:

1. 124 Place of use is within the service area of the City of Ammon municipal water supply system as provided for under Idaho Law.
2. 180 A map depicting the place of use boundary for this water right at the time of this approval is attached to this document for illustrative purposes.
3. X27 This right is limited to the irrigation of 15.0 acres within the authorized place of use in a single irrigation season.
4. X35 Rights 25-14331, 25-14333 and 25-14380 when combined shall not exceed the irrigation of 93.5 acres.
5. X35 Rights 25-14331, 25-14333, 25-14380, 25-14384 and 25-14386 when combined shall not exceed the irrigation of 125.4 acres.
6. 228 Municipal use under rights 25-14331, 25-14333, 25-14380, 25-14384 and 25-14386 is for irrigation of 125.4 acres within the authorized place of use in a single irrigation season.
7. R05 Use of water under this right will be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 120.
8. R02 A lockable device subject to the approval of the Department shall be maintained on the diverting works in a manner that will provide the watermaster suitable control of the diversion.
9. 212 Prior to diversion and use of water under Transfer approval 78016, the right holder shall install and maintain acceptable measuring device(s) at the authorized point(s) of diversion, in accordance with Department specifications.
10. 213 Upon specific notification of the Department, the right holder shall install and maintain data loggers to record water usage information at the authorized point(s) of diversion in accordance with Department specifications.
11. The irrigation component of municipal use under this right when combined with all other rights shall provide no more than 4.0 afa per acre at the field headgate.

83290

12. 201 The combination of changes under: Transfer approval 78016 as described under right 25-14380 Transfer approval 78017 as described under right 35-14280 Transfer approval 78018 as described under right 25-14381 Transfer approval 78019 as described under right 25-14382 provide the necessary mitigation for any increased depletion to connected reaches of the Snake River that would result from each individual transfer. These transfer approvals shall not require mutual dependence for ongoing mitigation. Any future action, including a subsequent transfer of this right or an order rescinding a transfer approval, which would result in a change to the point(s) of diversion under this right may require mitigation for the effects of the change. Such future action to change the point(s) of diversion under this right shall be analyzed for effects to connected reaches of the Snake River based on the priority date, point(s) of diversion and steady-state quantity as authorized for this right under Transfer approval 78016.
13. 205 The approval of this transfer redefines all of the elements of this water right, and the new use of water authorized by this approval shall constitute the full extent of the right.
14. 004 This right does not grant any right-of-way or easement across the land of another.
15. T07 The right holder shall accomplish the change authorized by this transfer within one year of the date of this approval.
16. T08 Failure of the right holder to comply with the conditions of this transfer is cause for the Director to rescind approval of the transfer.
17. T19 Pursuant to Section 42-1412(6), Idaho Code, this water right is subject to such general provisions necessary for the definition of the rights or for the efficient administration of water rights as may be determined by the Snake River Basin Adjudication court at a point in time no later than the entry of the final unified decree.

7. R02 A lockable device subject to the approval of the Department shall be maintained on the diverting works in a manner that will provide the watermaster suitable control of the diversion.
8. 212 Prior to diversion and use of water under Transfer approval 79213, the right holder shall install and maintain acceptable measuring device(s) at the authorized point(s) of diversion, in accordance with Department specifications.
9. 213 Upon specific notification of the Department, the right holder shall install and maintain data loggers to record water usage information at the authorized point(s) of diversion in accordance with Department specifications.
10. 113 Beginning on the date of approval of Transfer 79213, the irrigation uses under rights 25-14405 and 25-14406 when combined are limited to the following schedule of allowed. Year 2014 through 2015 the rights are limited to 0.16 cfs, 48 afa and 12.0 acres. Year 2016 and beyond the rights are limited to 0.21 cfs, 64.0 afa and 16.0 acres.
11. The irrigation component of municipal use under this right when combined with all other rights shall provide no more than 4.0 afa per acre at the field headgate.

83290

12. 201 The combination of changes under Transfer approvals: 79213 as described under rights 25-14405 and 25-14406 79215 as described under rights 29-14106 and 29-14107 79217 as described under rights 35-14381 and 35-14382 79218 as described under rights 27-12265 and 27-12266 provide the necessary mitigation for any increased depletion to connected reaches of the Snake River that would result from each individual transfer. These transfer approvals shall not require mutual dependence for ongoing mitigation. Any future action, including a subsequent transfer of this right or an order rescinding a transfer approval, which would result in a change to the point(s) of diversion under this right may require mitigation for the effects of the change. Such future action to change the point(s) of diversion under this right shall be analyzed for effects to connected reaches of the Snake River based on the priority date, point(s) of diversion and steady-state quantity as authorized for this right under Transfer approval 79213.
13. 205 The approval of this transfer redefines all of the elements of this water right, and the new use of water authorized by this approval shall constitute the full extent of the right.
14. 004 This right does not grant any right-of-way or easement across the land of another.
15. T07 The right holder shall accomplish the change authorized by this transfer within one year of the date of this approval.
16. T08 Failure of the right holder to comply with the conditions of this transfer is cause for the Director to rescind approval of the transfer.
17. T19 Pursuant to Section 42-1412(6), Idaho Code, this water right is subject to such general provisions necessary for the definition of the rights or for the efficient administration of water rights as may be determined by the Snake River Basin Adjudication court at a point in time no later than the entry of the final unified decree.

MUNICIPAL Use:

Acre Limit: 12.8

Place(s) of use: Large POU Info

Conditions of Approval:

1. 212 Prior to diversion and use of water under Transfer approval 79468, the right holder shall install and maintain acceptable measuring devices at the authorized points of diversion, in accordance with Department specifications.
2. 213 Upon specific notification of the Department, the right holder shall install and maintain data loggers to record water usage information at the authorized point(s) of diversion in accordance with Department specifications.
3. R05 Use of water under this right will be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 120.
4. R02 A lockable device subject to the approval of the Department shall be maintained on the diverting works in a manner that will provide the watermaster suitable control of the diversion.
5. 124 Place of use is within the service area of the City of Ammon municipal water supply system as provided for under Idaho Law.
6. 180 A map depicting the place of use boundary for this water right at the time of this approval is attached to this document for illustrative purposes.
7. 228 Municipal use is for irrigation of 12.8 acres within the authorized place of use in a single irrigation season.
8. The irrigation component of municipal use under this right when combined with all other rights shall provide no more than 4.0 afa per acre at the field headgate.
9. T07 The right holder shall accomplish the change authorized by this transfer within one year of the date of this approval.
10. T08 Failure of the right holder to comply with the conditions of this transfer is cause for the Director to rescind approval of the transfer.
11. T19 Pursuant to Section 42-1412(6), Idaho Code, this water right is subject to such general provisions necessary for the definition of the rights or for the efficient administration of water rights as may be determined by the Snake River Basin Adjudication court at a point in time no later than the entry of the final unified decree.

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES

APPLICATION FOR TRANSFER OF WATER RIGHT

PART 3

A. PLAT MAP (See Part 3A of Instructions for application for transfer for complete requirements.)

- ☒ Attach a map of the diversion, measurement, control, and distribution system. Label it **Attachment #7a**.
- ☒ If the transfer application proposes to change the place or purpose of use of an irrigation right attach a Geographic Information System (**GIS**) shape file, or an aerial photo or other image clearly delineating the location and extent of existing acres and changes to the place of use. Label it **Attachment #7b**.

If the place of use currently consists of a permissible place of use, then the attachment is not required if the application contains a clear statement that the boundaries for the place of use are not proposed to be changed by the transfer and the total number of irrigated acres within the place of use before and after the transfer is clearly stated.

If any part of the irrigation water right is leased to the Water Supply Bank, you must also specify the location and number of acres that will remain idled for the duration of the lease contract at the new, proposed place of use.

B. CHANGES IN NATURE OF USE (Water Balance)

- ☐ If you propose to change the nature of use or period of use of all or part of the right(s) listed in this application, attach documentation describing the extent of historic beneficial use of the portion of the right(s) proposed to be changed. Also attach documentation showing that the portion of the right(s) to be changed will not be enlarged in rate, volume, or consumptive use through the proposed change. Label it **Attachment #8a**.

C. PLACE OF USE CHANGES TO SUPPLEMENTAL IRRIGATION RIGHTS

- ☐ If you propose to change the place of use of a supplemental irrigation right, answer below and attach supporting documentation. Label it **Attachment #8b**.

Describe how the supplemental water rights have been used historically in conjunction with other water rights at the existing place of use. Describe the time during the irrigation season that the supplemental rights have been used. Include information about the availability or reliability of the primary right(s) being supplemented, both before and after the change. If the applicant is proposing to change a supplemental irrigation right to a primary right, provide the information required on Part 3B above:

This image shows a single sheet of white paper with horizontal blue or grey ruling lines. The lines are evenly spaced and run across the width of the page. There are no margins, text, or other markings on the paper.

Attachment No. 5
ESPA Analysis and Mitigation
Plan

ESPA ANALYSIS

ESPA analysis is required for this transfer because the current points of diversion and the proposed new point of diversion are not located within the same or adjacent model cells. See *Administrator's Memorandum*, Transfer Processing No. 24, December 21, 2009, at 13.

ESPA analysis is enclosed. Because the Applicant has multiple points of diversion, it was necessary to determine a weighted centroid for all the Applicant's points of diversion. The weighted centroid is in model cell 75,163.

The new well location is located south of the Applicant's current points of diversion in model cell 78,163. The well is going to be designed to divert 2,600 gpm (5.8 cfs) to be connected to the Applicant's municipal water system and used in conjunction with all of the Applicant's other municipal wells. The determination of what wells will be operated will depend on several operational factors to properly pressurize and deliver water through the municipal system. Therefore, it is unknown precisely how often the new well will be operated. Nevertheless, the transfer tool modeling assumed a worst-case scenario where the full anticipated diversion rate of the new well of 5.8 cfs was fully diverted for an entire year-long period (365 days), which calculates to be a total diversion volume of 4,187 AF/year, or 1,396 AF/trimester. This amount was used in the enclosed transfer tool modeling.

Under *Administrator's Memorandum*, Transfer Processing No. 24, there is a three-part test to determine whether mitigation is required for transfer approval. The transfer will not be approved or mitigation will be required if (1) the depletion to the river reach increases by 10% or more, unless (2) the depletions in the reach increase by 2 AF/trimester or less, or (3) the depletion to the reach is no greater than 10% of the total volume pumped. To apply this three-part test, the Department has prepared a mitigation analysis tool to display whether mitigation is required. Based on the enclosed transfer tool results, the enclosed mitigation analysis tool shows that no mitigation is required for this transfer.

Re: *Application for Transfer Submitted on Behalf of the City of Ammon to Add New Municipal Well to its Water Rights for its Municipal Water System.*

Dear IDWR Agent:

Enclosed for processing is a *Transfer Application* submitted on behalf of the City of Ammon which proposes to add a new well location to its current well locations for all of the City's water rights. Based up on the Department's fee schedule, we have enclosed a check in the amount of \$2,460.00 as the transfer proposes to amend all 30.53 cfs of the City's water rights. The City has successfully drilled a test well under Tag No. D0080417, and Dennis Dunn of your office requested that we have a transfer application submitted within approximately thirty (30) days to include this location as an authorized point of diversion under the City's water rights to avoid filling the test well.

If you have any questions concerning this application or any of the exhibits, please let me know. Additionally, if you would like any of the GIS shapefiles depicted on the maps included with the transfer, please let me know, and I will email them to you. My email address is rharris@holdenlegal.com.

Best regards,

Robert L. Harris
