

State of Idaho
Department of Water Resources
Permit to Appropriate Water
No. 63-34571

Priority: July 18, 2018

Maximum Diversion Rate: 0.84 CFS

This is to certify that

WEST ADA SCHOOL DISTRICT C/O SPENCER MCLEAN
1303 E CENTRAL DR MERIDIAN ID 83642-7991

has applied for a permit to appropriate water from:

Source : GROUND WATER

and a permit is APPROVED for development of water as follows:

<u>Beneficial Use</u>	<u>Period of Use</u>	<u>Rate of Diversion</u>
IRRIGATION	03/01 to 11/15	0.84 CFS

Location of Point(s) of Diversion

GROUND WATER NW¼ SE¼, Sec. 32, Twp 04N, Rge 01W, B.M. ADA County

Place of Use: IRRIGATION

Twp	Rng	Sec	NE				NW				SW				SE				Totals
			NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	
04N	01W	32			15.0											40.0	23.0		78.0

Right Acre Limit: 42.0

Total Acres: 78.0

Conditions of Approval

1. Proof of application of water to beneficial use shall be submitted on or before **June 01, 2024**.
2. Subject to all prior water rights.
3. The diversion rate for this right shall not exceed 0.84 cfs. Provided, further, this right when combined with all other rights shall provide no more than 0.02 cfs per acre when averaged over a twenty-four hour period based upon the amount of water applied over such twenty-four hour period. However, should the lands authorized to be irrigated under this right ever cease to be a school, park, cemetery or golf course recognized by the Department as allowing more than one inch per acre, then this right when combined with all other rights shall provide no more than 0.02 cfs per acre at the field headgate for irrigation of the place of use.
4. This right is limited to the irrigation of 42 acres within the authorized place of use in a single irrigation season.
5. Rights 63-11629 and 63-34571 when combined shall not exceed the irrigation of 42 acres.
6. This right when combined with all other rights shall provide no more than 4.5 afa per acre nor exceed a combined annual maximum diversion volume of 189 af at the field headgate for irrigation of the place of use.

State of Idaho
Department of Water Resources
Permit to Appropriate Water
No. 63-34571

7. The primary irrigation water for the place of use authorized under this right is surface water delivered by Nampa and Meridian Irrigation District. The right holder shall make full beneficial use of said primary surface water rights available to the right holder for irrigation of lands within the authorized place of use for this right. The right holder may divert water under this right to irrigate land with appurtenant primary surface water rights when the primary surface water supply is not reasonably sufficient to irrigate the place of use for this water right or is not available due to drought, curtailment by priority, or the seasonal startup and shutoff or maintenance schedule for canal company deliveries. The right holder shall not divert water for irrigation purposes under this right if use of the primary surface water rights is intentionally discontinued or reduced (for example abandoned, forfeited, sold, disallowed by court decree, or leased to the Water Supply Bank), or is not deliverable due to non-payment of annual assessments, without an approved transfer pursuant to Idaho Code §42-222 or other Department approval.
8. Right holder shall comply with the drilling permit requirements of Idaho Code § 42-235 and applicable Well Construction Rules of the Department.
9. After specific notification by the Department, the right holder shall install a suitable measuring device or shall enter into an agreement with the Department to use power records to determine the amount of water diverted and shall annually report the information to the Department.
10. Project construction shall commence within one year from the date of permit issuance and shall proceed diligently to completion unless it can be shown to the satisfaction of the Director of the Department of Water Resources that delays were due to circumstances over which the permit holder had no control.
11. The Director retains jurisdiction to require the right holder to provide purchased or leased natural flow or stored water to offset depletion of Lower Snake River flows if needed for salmon migration purposes. The amount of water required to be released into the Snake River or a tributary, if needed for this purpose, will be determined by the Director based upon the reduction in flow caused by the use of water pursuant to this permit.

This permit is issued pursuant to the provisions of Idaho Code § 42-204.

Signed this 31st day of May, 2019.

RE: Permit No. 63-34571

Permit Approval Notice

Dear Permit Holder:

The Department of Water Resources ("Department") has issued the enclosed permit authorizing you to establish a new water right. Please be sure to thoroughly review all the conditions of approval listed on your permit. The conditions include requirements that you must accomplish, such as timely submittal of proof of beneficial use or installation of a measuring device, as well as information about how your water use may be administered, such as regulation by a watermaster in a water district. Failure to comply with the conditions of approval may result in your permit lapsing or being canceled.

The permit is a PRELIMINARY ORDER issued pursuant to Rule 730 of the Department's Rules of Procedure (IDAPA 37.01.01.730). It can and will become a final order without further action by the Department unless a party petitions for reconsideration, files exceptions, or requests a hearing as described in the enclosed information sheet.

The final step in the water right process is issuance of a water right license. To receive a water right license, you must first commence the excavation or construction of your diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is complete. In addition, you must divert and use water to the full extent intended and submit a *Statement of Completion for Submitting Proof of Beneficial Use* by the date shown in condition no. 1 of your permit. The Department will send you a *Proof Due Notice* approximately 60 days prior to the date listed in condition no. 1 of your permit.

You may also require approvals from other Department programs, such as Ground Water Protection, Safety of Dams, or Stream Channel Protection, to accomplish your proposed development. Please call or visit any Department office or see the Department's website at idwr.idaho.gov for more information about these programs.

Also, please note that permit holders are required to report any change of ownership and/or mailing address to the Department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Forms to assign ownership or update your address are available from any office of the Department or on the Department's website.

If you have any questions concerning the enclosed information, please contact me at (208) 334-2190.

Sincerely,

Anna Kaiser
