Blaine Larsen, having received approved transfers from the Department of Water Resources in 1989, and having requested that the Department extend the two year approval period, the Director of the Department of Water Resource finds, concludes, and orders as follows:

FINDINGS OF FACT

1. On January 6, 1989, Blaine Larsen (Larsen) filed transfer applications no's 3502, 3503, 3504, 3505, 3506, 3507, 3508, and 3512 with the Department of Water Resources (department) proposing transfer of water right no.'s 35-7390, 35-7391, 35-7630, 35-7605, 35-7586, 36-7015A, 36-2074, 36-7613, 36-2409A, 36-7495, 37-2652, 36-2121, 36-2122, 36-2127, 36-2193, 36-2194, 35-2821A, 35-2728, 35-2844, 35-7361, 36-7022, 36-2632, 36-7272, 36-7897, and 36-2300. On January 25, 1989, Larsen filed transfer application no. 3500 with the Department, proposing transfer water right no.'s 21-7050 and 21-7051.

2. The transfer applications proposed irrigation of 4,594 acres in Jefferson and Clark counties from groundwater and withdrawal from irrigation of 4,894 acres in Bingham, Lincoln, Minidoka, Jefferson and Fremont counties to compensate for the proposed water use.

3. Timely protests against the approval of the applications were filed by various parties. Two days before a scheduled hearing, the protestants withdrew their protests based on a stipulation between the parties. The parties agreed that Blaine Larsen should be allowed to temporarily transfer water rights to his existing places of use pending the completion of a study by United States Geological Survey (USGS). USGS predicted completion of its study in 1991. Blaine Larsen's pending transfers in 1989 were approved for one year. Blaine Larsen subsequently filed other applications for transfer, numbered 3666, 3667, 3668, 3669, 3670, and 3671, proposing transfer of water right no's 35-2728, 35-2821, 35-2844, 35-7361, 35-7586, 35-7605, 35-7632, A35-10948, 36-2074, 36-2121, 36-2122, 36-2124, 36-2127, 36-2190, 36-2193, 36-2194, 36-

2300, 36-2632, 36-2727, 36-7015A, 36-7022, 36-7272, 36-7495, and 36-7897.

4. The last set of applications for transfer were advertised properly, and the applications were not protested. The department approved the transfers in the spring of 1990 for a period of two irrigation seasons. The transfers authorized the irrigation of 4,075 acres listed on the summary attached, and labeled as Attachment 2.

5. In the spring of 1991, Blaine Larsen filed another application for transfer, numbered 3847, proposing to transfer water right no. 36-2197 for the irrigation of an additional 147 acres in Fremont County. The application was protested by some of the original protestants, but the protests were subsequently withdrawn. The application for transfer was approved for one year.

6. The approved transfer authorized the diversion of 1.47 cfs for irrigation of the following lands:

Township	Range	Section			Acres
08N	37E	32	NE	NE	37
08N	37E	32	SE	NE	37
08N	37E	32	NE	SE	37
08N	37E	32	SE	SE	36
			TOTAL		147

7. The transfers expired at the end of the 1991 irrigation season.

8. As the end of the transfer approval period approached, the USGS represented that it would not complete its study prior to the 1992 irrigation season. Larsen negotiated with and received consent from all the original protestants to extend the prior approved transfer for one more year.

CONCLUSIONS OF LAW

1. Idaho Code, Section 42-222 sets forth the criteria the department must consider in evaluation of an application for transfer:

The director of the Department of Water Resources shall examine all the evidence and available information and shall approve the change in whole, or in part, or upon conditions, provided no other water rights are injured thereby, the change does not constitute an enlargement in use of the original right, and the change is consistent with conservation of water resource within the state of Idaho and is in the local public interest.

2. All of the criteria listed above were considered in the prior applications for transfer listed above, which were approved by the Department of Water Resources.

3. The petition for renewal of the transfer approval does not propose any change in the points of diversion, places of use, or water rights which were originally approved in 1990. A one year extension of time will not change the Director's original analysis of the criteria of Idaho Code, § 42-222.

4. No additional notice to the public is required. The published notice of the applications described the present water use, and, at the time, the public had an opportunity to contest the applications.

5. The request for an extension of the transfer approval should be granted.

ORDER

IT IS HEREBY ORDERED that applications for transfer no.'s 3666, 3667, 3668, 3669, 3670, and 3671, are REAPPROVED, subject to the following conditions:

1. The department retains jurisdiction over the transfers to modify, amend or cancel the transfers if it finds that the diversion and use of water under the transfers injures other water rights.

2. The transfers are approved for a period of one (1) year. On November 1, 1992, the water rights shall revert back to the original places of use and points of diversion with their original priority dates.

3. The priority of all water rights involved in these transfers shall be advance to December 22, 1989.

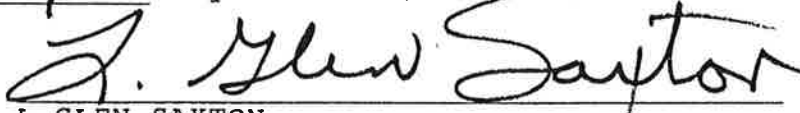

4. The place of use is limited to the 4221 acres listed in Attachment 2 and in finding of fact no.'s 4 through 6.

5. Any change in point of diversion, place of use, period of use, or nature of use, or any change in the water rights transferred to these lands for an additional years will require the filing of a new application of transfer.

RE: Extension of Temporary Transfers of Blaine Larsen
Our File: 1207-25

Dear Mr. Johnson:

At your instruction, I am submitting this letter on behalf of Blaine Larsen to request that the Department of Water Resources grant an extension of the temporary transfers of groundwater rights that were approved for Blaine Larsen during the 1991 irrigation season. Mr. Larsen proposes to use these same water rights on the same places of use again in 1992. This request includes those water rights that were included in the group transfer application in 1991 and the portion of water right 36-02197, that was approved for temporary transfer as an individual application in 1991. Extension of the 1991 transfer approval through 1992 will not result in any changes from the previous year.

I am enclosing copies of the original lease agreements between Mr. Larsen and the water right lessors, together with copies of the extensions of the same lease agreements for the 1992 irrigation season. Also enclosed, is a copy of an extension of the 1989 Mud Lake Memorandum Agreement, executed by Blaine Larsen, the U.S. Fish and Wildlife Service, the Idaho Department of Fish and Game and the eight Mud lake area canal companies together with a stipulation by the same parties. This extension carries the 1989 Agreement forward through the 1992 irrigation season.

Based upon my conversation with you, and upon the Director's position at the last U.S.G.S. status meeting regarding the Mud Lake Study, we understand that this request should be directed to the Boise office rather than the Eastern Region, and that the extension of the transfers for one additional year will not require submission of new transfer application forms or publication of notice. This seems appropriate since there will be no change from last year's situation.

Because we are anxious to move forward with this process as quickly as possible, please contact either me or Jeff Fereday immediately if you require additional information. Thank you in advance for your assistance.

Sincerely,
