CONDITIONS OF APPROVAL

Transfer of Water Right No. 31-0331/0371

1. Use of water under this right is subject to control by the watermaster of State Water District No. 31, Mud Lake and tributaries.
2. A measuring device of a type approved by this Department shall be installed and maintained as part of the diverting works.
3. The director retains jurisdiction of this transfer up to 5 years for the purpose of determining potential injury to existing rights, both junior and senior, and for the purpose of modifying the conditions of transfer approval as necessary to prevent such injury.
4. The cumulative rate of diversion and annual volume under Right Nos. 31-0331 and 31-0371 shall be appurtenant to the place of use so that each irrigated acre will receive an equal portion of water from the same source identified under both rights. Unless and until the Department imposes a different restriction, Holley shall reduce its pumping from the Holley wells by the same cumulative amount that the applicants propose to divert at their new points of diversion. The Department reserves the right to impose additional or different conditions on this transfer based on evidence provided during the period of retained jurisdiction or otherwise.
5. As specified by the court decree of Owsley Canal Co. v. Ernest Bauerle, October 14, 1940, the period of use under Right Nos. 31-0331 and 31-0371 is limited to the period from May 1 to November 1.
6. The change authorized by this transfer shall be accomplished within one (1) year of the date of this approval.
7. Failure to comply with the conditions of this transfer is cause for the director to issue an order to show cause why the approval of the transfer should not be rescinded.
