Hi Ryan,

I am sending you the maps we prepared earlier today. The 206 map shows the full 3,019 acres allowed by the water rights. I will need you to respond to this email and confirm that the 206 map represents where you want the acres. We can then update the water right shape in our system to match. I am also including a map showing where you agreed to irrigate in 2019 and the curtailed expansion acres.

Please let me know if you have any questions.

Thanks,

Nathan Erickson
