RE: Refund and Return of WSB Lease Application 1402

Dear Applicant,

Following our discussion on May 21, 2019, the Department of Water Resources (Department) has determined that it cannot continue processing your Water Supply Bank lease application. Specifically, Water Supply Bank rule 25.02.b requires that applicants provide proof of current ownership of a water right when proposing a lease. Your sale of the land (place of use) to which water right 47-4046 is appurtenant did not reserve the water right to you, so when the land was sold, the water right was sold with it. Though the title transfer documents acknowledge that water right 47-4046 is diverted from a well on your property, you no longer appear to be the owner of the water right.

In light of the above, your lease application is considered to be incomplete and a refund has been requested. If you do not receive your refund with thirty days of your receipt of this letter, please contact our office so that we may confirm your \$250.00 filing fee has been properly refunded to you.

Regards,

A handwritten signature in blue ink, appearing to read 'Remington Buyer', with a horizontal line extending to the right.

Remington Buyer
