RENTAL AGREEMENT CONDITIONS OF ACCEPTANCE

1. The use of water under this agreement shall be subject to the provisions of Idaho Code § 42-1766.
2. Rental of the specified right from the bank does not, in itself, confirm the validity of the right or any elements of the water right, or improve the status of the right including the notion of resumption of use. It does not preclude the opportunity for review of the validity of this water right in any other department application process.
3. Use of water under this agreement does not constitute a dedication of the water to renter's place of use, and upon expiration of this agreement, the points of diversion and place of use of the water shall revert to those authorized under the water right and/or again be available to rent from the bank.
4. Use of water under this agreement shall not prejudice any action of the Department in its consideration of an application for transfer or permit filed by the applicant for this same use.
5. Renter agrees to comply with all applicable state and federal laws while using water under this agreement.
6. Renter agrees to hold the Board, the Director and the state of Idaho harmless from all liability on account of negligent acts of the renter while using water.
7. Renter acknowledges and agrees that the Director may terminate authorization for the use of a water right based on a water right's priority date.
8. Failure of the renter to comply with the conditions of this agreement is cause for the Director to rescind approval of the rental agreement.
9. The period of use for the irrigation described in this approval may be extended to a beginning date of 3/1 and an ending date of 11/15 provided that beneficial use of the water can be shown and other elements of the right are not exceeded. The use of water before 4/1 and after 10/15 is subordinate to all water rights having no subordinated early or late irrigation use and a priority date earlier than 5/2/2008.
10. This rental agreement does not authorize the construction of a well.

Application to Rent Water (Continued)

4. RENTAL REQUESTS FOR SPECIFIC WATER RIGHTS

A. Are you requesting to rent specific water rights?

Yes No

If yes, specify below the elements of the water rights you are requesting to rent. If no, continue to Question 4B.

Important Information: Diversion rates and volumes sought for rent must be proportionate to the per acre diversion rates and per acre volume limits of the water right under lease contract to the Water Supply Bank. Prior to completing this section, applicants should review all water right lease contracts and any active rental agreements to determine which elements of a water right are available to satisfy a rental request. Lease and rental documents are searchable via [IDWR's website](#).

Water rights identified below must either already be leased to the Bank or a lease proposal should accompany this rental request. **Rental requests for water rights not yet leased to the Bank will be returned if companion lease applications are not provided with the rental request.** For leased rights featuring combined limits, rentals must be consistent with combined diversion rate, volume or acre limits. Combined limits should be listed on a row below water right numbers.

Water Right Elements Leased to Water Supply Bank					Leased totals, minus water right elements involved in active rental agreements, equals water right elements available for rent	Water Supply Bank Rental Request		
Water Right Number (leave blank if sub-total of combined limits)	Nature of Use	Diversion Rate (CFS)	Volume (AF)	Acres (AC)		Diversion Rate (CFS)	Volume (AF)	Acres (AC)
63-34290	Irrigation	0.06	22.5	5		0.012	4.5	1.0
63-34292	Irrigation	0.04	17.2	5		0.008	3.4	1.0
Applicants must ensure the requested rate per acre and volume per acre do not exceed the rate per acre and volume per acre limits of water rights leased to the Water Supply Bank					TOTAL	0.02	4.5	1.0
						CFS	AF	AC

**Attach multiple copies of this page if space above is insufficient to list all water rights requested to be rented on this application.*

B. If water right conditions, combined limits, or the sum of all water right elements being requested provide an unconventional duty of water (e.g., an unusually low rate per acre or volume per acre for irrigation use), explain how your proposed rental will sufficiently accomplish your intended purposes. Attach a separate page if space is insufficient and label it **Attachment 4B**:

C. Does your rental request propose to change the nature of use for any water right(s) being rented?

Yes No

If yes, explain how the water right(s) will be converted to new uses. Include the historic, consumptive use amounts for the water right being rented if you have it, as well as the new consumptive use amount for your proposed beneficial use. If space below is insufficient, attach a separate page and label it **Attachment 4C**:

*****TIME SENSITIVE RESPONSE REQUIRED*****

Dear Applicant:

The Department of Water Resources acknowledges receipt of your application to rent water from the Water Supply Bank. **I have enclosed a Water Supply Bank Rental Agreement for your review and signature.** Upon signature and return of the original agreement, together with the rental fee described below, the Department will also sign the original agreement and return an executed copy to you. Execution of the agreement and compliance with the conditions of approval authorize diversion and use of water as provided in the agreement.

A rental fee of **\$90.00** was calculated based on the current rental rate of \$20.00 per acre-foot times a diversion volume of 4.5 acre-feet. Since you are both the lessor and the renter of the rights, **you are only obligated to pay the 10% administrative fee or \$9.00.** An annual payment shall be received by the Department prior to the execution of this agreement and prior to January 1 in all subsequent years for the duration of the rental period. The agreement will be void if payment is not received prior to the due date in a given year. If you would like to terminate the agreement prior to the end of the rental period, you must submit written notice of your intent to the Department at least 30 days prior to the rental fee due date.

Please send a check for \$9.00 made payable to the Idaho Department of Water Resources, **together with the signed rental agreement, within 14 days** so I can complete processing.

Re: Water Supply Bank Rental Application 1321 for Agreement 327

Purpose/Narrative: Application received on January 15, 2019 from Silverstrand Revocable Trust, through Lori Graves of SPF Engineering, requesting an irrigation rental for 2019 and 2020, to irrigate a residential home in the Deersky Ranch Subdivision, south of Lake Lowell in Canyon County. The applicant has purchased land (and the appurtenant water rights) after the water rights were already leased to the Bank (contract 313). Because the applicant has purchased a portion of water rights already under lease to the Bank, it is administratively simpler for them to rent their own water rights for two years (at which point the contract will expire), rather than submit lease applications to extract their portions of the lease contract from the Bank.

Authority to File: Application has been submitted by Tom and Elizabeth Silverstrand, who are the owners of the water rights being rented. No concerns about authority to file.

Water Right Validity/Forfeiture Evaluation: The water rights associated with this rental are all valid and there are no concerns about forfeiture.

Injury Evaluation: No injury is apparent under this rental.

Enlargement of Use: The water rights being rented will be used at their authorized place of use. No enlargement concerns.

Local Public Interest: Staff have no information to suggest this rental is contrary to local public interests.

Beneficial Use/Conservation of Water Resources: Irrigation is a beneficial use and the irrigation practices appear to be consistent with the conservation of water resources.

Department/Watermaster Comments: This rental approval is subject to review and recommendations from IDWR Western Region. Comments will be requested.

Water Supply Bank Evaluation: Subject to favorable review by regional office staff, it is recommended this rental be approved.

These rights were created as splits from Deer Sky Ranch water rights 63-32968 and 63-32970. The applicants understand the rental fee will include only Department administrative costs because they are requesting rental of their own water. A *Notice of Change in Water Rights Ownership* along with check #1901 for \$50 is included to allow the Department to update the water right records to list the applicants as current owners.
