Continued description of proposal

Looking over the records and maps that are available I see a discrepancy when it comes to my diversion point. There is a pump house across the street from my house that has been plumbed into my property since this house was built. The water and electric are tied into my residence. I am aware that my neighbor Erlene West has been granted a point of diversion to irrigate her property. The diversion point given to her is identified on the map as (my pump house)... She does not get her water from that point. She shares a diversion point with her neighbor Bruce McLeod.. His diversion point is # 81-7007A.. Erlene West's # should be 81-7007B. I am bringing these issues to view only to clarify matters, not to complicate anything..Thank you for your cooperation in these matters.

Sincerely: Eugene Wollerton

Re: Application for Permit Unacceptable for Filing (Rule 35 Application Requirements)

Dear Applicant:

Your **corrected Application must be received no later than June 6, 2019**. IDWR will take steps to terminate your Application, if no response is received, pursuant to Idaho Code § 42-204.
