RE: *Application for Permit No. 36-17131*

Dear Mr. Skinner:

This letter has been generated in response to an inquiry raised by the Department during our February 26, 2019 Pre-hearing Conference. The above referenced Application for Permit which was filed with the Department identifies a request for Domestic water use on two separate parcels. As a point of clarification, the Applicant is requesting that Domestic use of 13,000 gallons per day be allocated for each parcel identified in the original Application.

Please feel free to contact me if you have any further questions.

Very Truly Yours,

WILLIAMS MESERVY & LARSEN, LLP

KIMBERLY L. WILLIAMS

KLW/mmb
