1. The water rights referenced above will be rented from the bank at the current rental rate.

3. While a right is in the bank, the lessor may not use the right without approval of the Department even if the right is not rented from the bank. WATER SUPPLY BANK LEASE CONTRACT No. 974

7. Failure of the right holder to comply with the conditions of acceptance is cause for the Director to rescind acceptance of the lease.
8. Acceptance of a right into the bank does not, in itself, confirm the validity of the right or any elements of the water right, or improve the status of the right including the notion of resumption of use. It does not preclude the opportunity for review of the validity of this water right in any other Department application process.
9. In accordance with Idaho Code § 42-248 and § 42-1409(6), all owners of water rights are required to notify the Department of any changes in mailing address or change in ownership of all or part of a water right. Notice must be provided within 120 days of the change.
10. If a water right leased into the Water Supply Bank is sold or conveyed during the lease term, and if the leased right was rented, the rental proceeds will be disbursed in the following manner regardless of any arrangements between the buyer(s) and seller(s) to the contrary:
 - a. Rental payments will go to the lessor(s) of record at the beginning of the rental season, even if the Department processes a Notice of Change in Water Right Ownership during the rental season.
 - b. New lessor(s) of record will receive payment for any subsequent rental seasons.
11. The water right(s) is leased to the bank subject to all prior water rights and shall be administered in accordance with Idaho law and applicable rules of the Department of Water Resources.
12. Right no. 34-14529 is an enlargement of right 34-14528 pursuant to section 42-1426, Idaho Code.
13. The period of use for irrigation described above may be extended in seasons of unusual characteristics to a beginning date of 04-20 and an ending date of 10-31 at the discretion of the director of the Idaho Department of Water Resources.
14. The leased portions of right nos. 34-14526, 34-14527, 34-14528 and 34-14529 are limited to a combined diversion rate of 0.22 cfs and a total combined annual diversion volume of 30.1 af and the irrigation of a combined total of 8.6 acres in a single irrigation season.

**RE: WATER SUPPLY BANK LEASE CONTRACT 974
FOR WATER RIGHTS 34-14526, 34-14527, 34.14528, and 34-14529**

Dear Lessor:

Water rights **34-14526, 34-14527, 34.14528, and 34-14529** were leased into the Water Supply Bank (Bank) as of January 14, 2019, in accordance with the enclosed executed lease contract. **Your water rights, as described on the lease contract, are considered leased into the Bank and should remain unused until they are formally released from the Bank.** More information and further restrictions placed on your water rights while leased can be found in conditions of acceptance of the lease contract. Read the conditions of acceptance carefully.

The rights will automatically be released from the Bank on **December 31, 2023**, unless the rights are released earlier by the Water Resource Board (Board). On behalf of the Board, the Department of Water Resources (Department) can evaluate an early release of the lease contract upon your request. To release the water rights from the Bank prior to the release date, submit a written request on the *Request to Release a Water Right from the Bank* form. This form is available on our public website at www.idwr.idaho.gov. **Please note your water rights may not be available for immediate release if they have been rented or are being considered for a future rental. Furthermore, it is at the discretion of the Department whether or not a water right can be released early from a lease contract.**

If you have questions regarding this matter, please contact this office at 287-4800.

Sincerely,

Water Supply Bank

Dear Applicant:

The Department of Water Resources has completed its review of your applications to lease the above-mentioned water rights to the Water Supply Bank. **I have enclosed two original Water Supply Bank Lease Contracts for your review and signature. Please sign and return ALL Lease Contracts within 14 days.** Upon signature and return of the contracts, the Department will also sign the original contracts and return an executed copy to you. The Lease Contract is not considered final until you and the Department have both signed.

To release the rights from the Bank prior to the release date, submit a written request on the Request to Release a Water Right from the Bank form. Please review the conditions of acceptance listed on the Lease Contract, including #3 which says:

"While a right is in the bank, **the lessor may not use the right** without approval of the department even if the right is not rented from the bank. Any violation of the terms of this lease may result in enforcement procedures pursuant to Idaho Code § 42-351 for illegal diversion and use of water and may include civil penalties pursuant to Idaho Code § 42-1701B."

MEMORANDUM FOR APPLICATION # 1306 Contract #974

To: Water Right(s) 34-14526, 34-14527, 34-14528 & 34-14529

From: Mary Condon

Date: April 10, 2019

Re: Review & Analysis of Application to Lease Water to the State Water Supply Bank

PURPOSE/NARRATIVE: Applications to lease a portion of overlapping rights 34-14526, 34-14527, 34-14528 & 34-14529 were received on January 14, 2019, along with companion rental application 1307 for Moss Farms. This is a repeat lease for another five years.

AUTHORITY TO FILE: Applications signed by Max Bingham, as designated lessor for the rights, and Kristen Moore with Rocky Mountain Environmental as their consultant. Water rights and land parcel information for the leased portions are in the name of Max and Cheryl Bingham. A designated lessor form for Max signed by Cheryl was submitted with the application. No concerns with authority to file.

WATER RIGHT VALIDITY: These rights were decreed in 2009, and were split from rights 34-282C, 34-452E, 34-2438 and 34-10795 in 2015, with Bingham as the original owners of the parent rights. The 8.6 acres offered to the bank have been leased from 2014-2018. No concerns with validity of the water right and portion offered to the bank.

INJURY TO OTHER WATER RIGHTS: The POD for the leased surface rights 34-14526 & 34-14527, share a POD with split rights 34-282C, 34-452E, and with rights 34-856H & 34-282B, through the Lower Burnett canal, operated by the Big Lost River Irrigation District. A letter from the Irrigation District dated January 7, 2019 allows the partial lease of acres with no holdback. The two groundwater rights have no other water rights from the POD. Lease of these water rights would not cause injury to other water rights. Proper review to prevent injury if rented.

ENLARGEMENT OF USE: Big Lost River Irrigation District has several Irrigation water rights with a large POU overlapping the leased place of use, although no shares were stated to be held by the Bingham's. The leased portions have been idled while in the bank. Application to Lease does not list any other overlapping irrigation water rights. Proportionate values of the stacked rights will be placed into the bank. Water right POU shape file is 120.1 acres, less the irrigated areas, leaves 15.7 acre PPU for the leased 8.6 acres. No enlargement through the lease of a portion of these rights should occur.

LOCAL PUBLIC INTEREST: Review staff has no information to suggest this application is inconsistent with the local public interest.

BENEFICIAL USE/CONSERVATION OF WATER RESOURCES: The lease appears consistent with the conservation of water resources in Idaho.

DEPARTMENT STAFF OR WATERMASTER COMMENTS: The location for the lease PD is subject to Water District # 34 Big Lost River WD and GWD Big Lost River. ESPA, row 17 col 113

Water right POD SOU 5/1-10/15; shoulder season beginning 4/1 until 10/31 with Director's discretion. Area SOU 4/1-10/31; HG – 3.5, CU – 2.5.

Request for comment to region manager and WD Watermaster on 4/10/2019.
