Dear Wateruser:

The Department of Water Resources approves the use of any standard device for which information is readily available. The type selected will depend upon the particular conditions at you diversion point. Any of the following standard types may be used:

Weirs

- a. rectangular
- b. cipolletti
- c. v-notch

Orifices

Flumes

- a. parshall flume
- b. trapezoidal flume

Commercial Types

- a. displacement or propeller meter
- b. cox flow meter or collins flow meter
- c. venturi meter
- d. deflection meter
- e. meter gates

Regardless of the type used, the device must be properly installed to insure standard conditions. Other types may be approved upon written application to the Department stating the description of the device and how you intend to use it. If the device that you install is not a standard type, you should obtain an extra copy of the rating table for this office.

Very truly yours,
