- A. The Idaho Department of Water Resources ("IDWR") issued its Final Order Regarding Water Sufficiency in The Matter of Application for Transfer No. 78356 (Shekinah Industries), *et. al* on November 4, 2013. The Final Order addressed the issue of which, if any of the 8 applications for permit and/or applications for transfer pending within an area designated as the I-84 Corridor should be processed. The Final Order determined that IDWR should process three applications within the I-84 Corridor, and that the water supply would later be evaluated and the remaining applications processed in chronological order of receipt.
- B. Juniper Station Farm, LLC filed Application for Transfer No. 81327 with the Idaho Department of Water Resources on December 5, 2016. The application proposed to move the point of diversion and place of use for three water rights from within the Cinder Butte Critical Ground Water Area to within the I-84 Corridor described in paragraph A hereinabove.
- C. Protestants protested Application for Transfer No. 81327, requesting that the Application be processed only after other applications currently pending within the I-84 Corridor are processed.
- D. The parties agree that Application for Transfer No. 81327 should be processed in chronological order of its receipt, along with the rest of the currently pending applications

within the I-84 Corridor.

- E. The parties agree that upon IDWR's written confirmation to the parties that Application for Transfer No. 81327 shall be processed as outlined in paragraph D hereinabove, all protests to the Application shall be deemed withdrawn.
