EXPLANATORY INFORMATION TO ACCOMPANY A PRELIMINARY ORDER

(To be used in connection with actions when a hearing was **not** held)

(Required by Rule of Procedure 730.02)

The accompanying order or approved document is a "**Preliminary Order**" issued by the department pursuant to section 67-5243, Idaho Code. **It can and will become a final order without further action of the Department of Water Resources ("department") unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:**

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. **Note: the petition must be received by the department within this fourteen (14) day period.** The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after: (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the Department or the Water Resource Board is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the Department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its service date if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) The petition for reconsideration is disposed of; or
- (b) The petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

Corey,

I apologize for getting back to this so late. I went out and confirmed that there is indeed a well at that location. We typically lean on your office to create the WMIS record when a new well is drilled and we didn't follow through to be sure. Attached are some pictures from that diversion to populate the new WMIS record.

The GPS Location of that well in meters is: 2535344.553, 1245236.552

We'll make sure to continue readings on this well. Thanks for notifying us. Let me know if there is anything else you need.

Jaxon

Brian,

Denise forwarded your water master comments on to me regarding this particular transfer. The right that is subject to this transfer, was transferred to a well located within the NESE of Section 6 (north of the property near the convenience store) in the summer of 2017. It looks like the well was drilled in 2016 by Chesley Drilling for LeRoy Robinson. Mr. Robinson has another irrigation right from this well for property to the north of the convenience store. It does not look like there is a WIMIS point associated with this well. Perhaps this well has been missed?

Hi Denise.

We have reviewed the LeRoy Robinson transfer number 82876.

The Erickson water right is for 18 acres. This water right has not been used since we have been watermaster beginning in 2010. There is no irrigation well on the property. There is a domestic well at the convenience store. However, there is no domestic or commercial use listed on that right. The well is de minimis use and has no meter or measuring requirement.

Thank you.

Sufficiency Memorandum

Date: March 29, 2019
To: Transfer #82876, LeRoy Robinson.
From: Benny Walker
Re: Evaluation of Sufficiency of Information Submitted

Application proposes to transfer a 0.09 cfs and 6.0 acre portion of a ground water irrigation right from a parcel located approximately 0.5 – 0.6 miles south and 0.25 – 0.5 miles east of Albion. This water right will be moved to a farm, located approximately 0.25 – 0.75 miles south and 0.5 – 1.0 miles east of Albion. Also a portion of the existing water right located at the proposed place of use will be shifted to include the transferred 6.0 acres. This will create a 131 acre permissible place use and a total diversion of 1.34 cfs for both water rights diverted from an existing well located on the proposed place of use. During the review of water right 45-13429 it was determined that only 4.0 acres were transferable and that 2.0 acres will be forfeited due to the inability to prove that the full 6.0 acres had been irrigated in the last 8 years. Consequently the transferred portion will be reduced to 4.0 acres, 0.08 cfs, and 14 af. Therefore the permissible place of use will be reduced to 129.0 acres, a total diversion 1.33 cfs, and 514 af for both water rights at approval.

The rights involved with the application are located within Water District #140 so watermaster comments were solicited. The water master expressed some concerns, he was unaware of an irrigation well located on the property or the use of water right 45-13429. The point of diversion used for water right 45-13429 is located on a neighboring property. The watermaster has now been informed of this well location. Application was subject to notice and protest. No protests were received

- **Authority to File:**
Applicant is listed as current owner on IDWR records for water right 45-2296. The applicant provided deeds allowing for the portion of water right 45-13429 to be transferred.
- **Water Right Validity:**
The water rights 45-2296 and 45-13429 were decreed in 2005. Review of recent aerial photography indicates that water right 45-13429 appears to have not been used up to the total allowable acres in recent years. As a result the transferred portion of this right will be reduced to 4.0 acres, 0.08 cfs and 14 af.
- **Injury to Other Water Rights:**
None anticipated.
- **Enlargement of Use:**
None anticipated. The proposed place of use will be limited to 129 acres allowed by the water rights. The portion of water right 45-13429 being transferred will be dried up at the existing place of use.
- **Local Public Interest:**
No negative impacts anticipated. The watermaster did not oppose the approval of this transfer, but did express some concerns as discussed above. No protest were received
- **Beneficial Use/Conservation of Water Resources:**
Proposed uses are recognized as beneficial uses of water
- **Effect on Economy of the Local Area:**
None anticipated.
- **Effect of the Agricultural Base of the Local Area:**
None anticipated.

Review of the application finds there is no clear inconsistency with criteria set forth in Section 42-222 Idaho Code preventing processing of this application.

Hi Denise.

We have reviewed the LeRoy Robinson transfer number 82876.

The Erickson water right is for 18 acres. This water right has not been used since we have been watermaster beginning in 2010. There is no irrigation well on the property. There is a domestic well at the convenience store. However, there is no domestic or commercial use listed on that right. The well is de minimis use and has no meter or measuring requirement.

Thank you.

Brian
