D. REMARKS

This application is to change the place of use of American Falls Reservoir storage water from lands described in License R-269 but which are not receiving service from said facility, to lands proposed to receive water service through the Unit A Extension of the North Side Pumping Division of the Minidoka Federal Reclamation Project. This storage water is intended to be supplemental to a direct flow water right on the newly replaced 790 acres.

I hereby assert that no one will be injured by such change and that the change does not constitute an enlargement in use of the original right. The information contained in this application is true to the best of my knowledge.

I understand that any willfull misrepresentations made in this application may result in voiding its approval.
