MEMORANDUM

TO: Files 34-00773

FROM: Pam Skaggs^{CS}/State Office

SUBJECT: Transfer 4088

DATE: July 21, 1999

Transfer 4088 changes the place of use under Right 34-00773, shifting 6 acres to accommodate installation of a pivot. This is the third of three (3) transfers reconfiguring the groundwater (Transfer 4086) and surface water (Transfers 4087 & 4088) rights used to irrigate a total of 410 acres.

The transfer was originally delayed due to SRBA recommendations including expansion claims. The issue was resolved and the rights reformatted to reflect the enlargement statute and partial decrees issued. See Carter Fritschle review memo of 03-29-99 for the specific changes made under these three transfers.

Recommended conditions include watermaster control, measuring device, irrigation overlap, combined right limits and standard transfer conditions.
