CONDITIONS OF APPROVAL AND REMARKS

1. A measuring device of a type approved by this Department shall be maintained as a part of the diverting works.
2. Use of water under this water right will be regulated by the watermaster of State Water District No. 31.
3. Approval of this transfer in no way grants any right-of-way or easement for use of a delivery system owned by person(s) other than the right owner.
4. The change authorized by this transfer shall be accomplished within one (1) year of the date of this approval.

TRANSFER NO. 4720

MEMORANDUM

TO: FILE NO. 31-00079
FROM: PAM SKAGGS/STATE OFFICE
SUBJECT: TRANSFER NO. 4720
DATE: October 22, 1996

RECEIVED

NOV 08 1996

Department of Water Resources
Eastern District Office

Transfer No. 4720 was filed to change the point of diversion, place, nature and season of use under a portion of Right No. 31-00079, splitting the right into parts A and B. The applicant will remove 2 acres from irrigation to provide water to a stockwater system consisting of a pump, storage tank and a series of 3 troughs.

The transfer application originally included Right No. 31-00020 also, but was amended before final processing. Overlap review of the water rights as recorded show no overlap of the original place of use of the 2 acres being dried up. The change from irrigation to stockwater use reduces both the diversion and consumptive use volume.

Change in Nature of Use Evaluation

			Div. Vol.	C/U Vol.
Original Rt:	254 Acres	5.80 cfs	(889 afa)	(635 afa)
Unchanged				
Part A:	252 "	5.75 "	(882 ")	(630 ")
Stockwater				
Part B:	(2 ")	0.05 "	2 "	-----
Total:	254 Acres	5.80 cfs	884 afa	630 afa

The application identifies a modified season of use for 152 days and 360 range cattle. The diversion volume was calculated from this information.

360 cattle x 12 gpd x 152 days = 656,640 gal or 2.0 af

Recommended conditions include measuring device, watermaster control, right-of-way and standard transfer conditions.

RE: TR 4720 - BURTENSHAW

The intent of this action was to assist one Glen Dalling in securing a right to pump stockwater from Camas Creek. Traditionally, he has watered his cattle out of the creek, but the BLM wants to fence that area off to stock. New applications in that area are usually always protested, so we advised Mr. Dalling to buy part of a water right and change the nature of use to stockwater. Mr. Burtenshaw provided that opportunity.

When we reviewed the existing claims and water rights for Mr. Burtenshaw, we felt the claims indicated the truer picture of use (A31-00079A and A31-00020). After the transfers were advertised, I attended the transfer conference in Boise. Our ideas about using adjudication claims as a basis for transfers was not endorsed, so we had to rethink Transfer 4720.

It was then we discovered Mr. Burtenshaw also owned the ground under A31-00079B. He also had the ground under A31-00078. It became apparent all the rights were delivered to a common ditch system to irrigate 469.3 acres. Since we work in concert with the adjudication team on transfers, we informed Mr. Burtenshaw his claims needed to be corrected and amended to reflect the actual 1/4 of 1/4 of use. Also, the total acres were incorrect. It took literally months before Mr. Burtenshaw would come in and help us correct his place of use.

My true intent is to only dry out two specific acres of irrigation and change the cfs involved to stockwater use. The irrigation land list is being provided as the proposed "R" record for the rights after the change. We are proposing a permissible place of use for the three (3) rights, but they are not overlapping, rather used in an adjacent mode.

MEMO

Page - 2 -

Our efforts, whether inspired or not, were to provide the Boise review team a picture of the rights in a true use mode. We have been on-site, reviewed NAPP photos and 1994 and 1995 slide photo overflights of the Burtenshaw property.

Since the transfer was advertised and made well known by the water master of Camas Creek and no protests were filed, I feel no re-advertisement is necessary. Jim and I discussed this. I realize all allocations will probably do is approve deleting two (2) acres from Rt. 31-00079. This should be simple and quick. The rest of the land list information will be for Ernie Carlsen's use in amending the claims.

I have done another transfer in the past which was a "two-fer" and noticed Pam approved the "B" portion but deferred any action on the "A" portion. This was left up to adjudication review and recommendation. That is quite acceptable.

The importance here is SCS has cost-shared the stockwater project and will only release the money to Mr. Dalling if the transfer is approved. Right now there is tension between the parties over this disposal and we could use help getting an approval that SCS can take to the bank.
