MEMORANDUM

TO: FILES 34-00097, 34-00099, 34-10250

FROM: PAM SKAGGS/STATE OFFICE

SUBJECT: TRANSFER 4701

DATE: January 23, 1998

=====

Transfer 4701 changes the place of use under Rights 34-00097, 34-00099, 34-10250. Companion Transfer 4700 changes the place of use under groundwater Right 34-07140 that partially overlaps the same 345 acre place of use.

The transfers were filed in an effort to remove the rights from BLM land and resolve problems with the recommendations of the SRBA. Earlier review was not possible due to recommendations of these decreed rights including expansion statutes. Carter Fritschle recently notified me that the transfer could now be processed using the reformatted "R" records and requested that we proceed to resolve the BLM land issue.

The decreed rights are recommended with a non-standard season and standard diversion volumes were identified. Recommended conditions include watermaster control, multiple points of diversion/measuring devices & lockable controlling works, irrigation overlap, combined right limits, permissible place of use, conveyance losses, right-of-way and standard transfer conditions.
