MEMORANDUM

TO: File 29-07196

FROM: Pam Skaggs/State Office

SUBJECT: Transfer 5209

DATE: April 20, 1998

Transfer 5209 adds a second point[✓] of diversion under Right 29-07196. The new point of diversion is an existing well drilled for domestic purposes in 1988 under Drilling Permit 29-98-E-0002-000, and upgraded for irrigation purposes by additional fee under Receipt E024040 on 04-13-98.

Season of use and diversion volume were adjusted to current standards. The standard season is 14 days shorter than the licensed season and reduced the volume based on the diversion rate. $(0.90 \times 183 \text{ days} \times 1.9835 = 326.7 \text{ afa.} < 3.5 \times 102 \text{ acres} = 357.0 \text{ afa})$

Recommended conditions include irrigation overlap, multiple points of diversion,[✓] measuring devices, future reporting and standard transfer conditions.
