## MEMORANDUM

TO: Files 35-02432 & 35-07391

FROM: Pam Skaggs/State Office

SUBJECT: Transfer 5203

DATE: July 9, 1998

The transfer changes the point of diversion and place of use under a portion of Rights 35-02432 and 35-07391, splitting each right into Parts A and B. Companion Transfer 5202 was returned to the region for further processing when the location of the proposed "new" existing well was identified in the wrong quarter-quarter.

The applicant is purchasing the water rights from land that has been in CRP to use on his own property. The sale and ownership change is contingent upon the approval of the transfer. Historical use was verified by SRBA staff and reflected on the transfer application limiting combined Rights 35-02432 and 35-07391 to 3.34 cfs, 952.0 afa and 238 total acres. This transfer changes the place of use of 133.0 acres and associated rates and volumes.

Season of use and diversion volume have been adjusted to current standards. Recommended conditions include drilling permit requirements, measure & annual reporting requirements, irrigation overlap, combined right limits and standard transfer conditions.
