MEMORANDUM

TO: Files 35-02758 & 35-08370

FROM: Pam Skaggs^{CS}/State Office

SUBJECT: Transfer 5427

DATE: August 19, 1999

Transfer 5427 adds and changes the point of diversion, and changes the place of use under a portion of Rights 35-02758 and 35-08370, splitting each right into Parts A and B. The remaining portions of the rights, Part As, are transferred also under companion transfer 5428. The applicant is using these two rights to complete two existing pivots under Transfer 5427 and develop another under Transfer 5428.

Right 35-08370 was licensed for 176 acres, however, region staff verified that only 166 additional acres were irrigated under this license. The transfer applications split the total of 310 irrigated acres (192 under Transfer 5427 & 118 under Transfer 5428), and adjust the acres under Right 35-08370 to a combined total of 166 under Parts A & B. This right also has a point of diversion overlap limiting condition that was identified on the transferred portions.

Recommended conditions include trust water conditions for Right 35-08370, Basin 35 conjunctive sources, drilling permit requirements, multiple points of diversion, measuring & annual reporting, permissible place of use, combined right limits, irrigation overlap and standard transfer conditions.
