MEMORANDUM

TO: Files 35-02758A & 35-08370A

FROM: Pam Skaggs/State Office

SUBJECT: Transfer 5428

DATE: August 19, 1999

Transfer 5428 changes the place of use under the remaining 118.0 irrigated acres under Rights 35-02758A and 35-08370A following approval of companion Transfer 5427. The applicant is rearranging his acres to accommodate a new pivot.

Right 35-08370 was licensed for 176 acres; however, region staff verified that only 166 additional acres were irrigated under this license. The transfer applications split the total of 310 irrigated acres (192 under Transfer 5427 & 118 under Transfer 5428), and adjust the acres under Right 35-08370 to a combined total of 166 under Parts A & B. This right also has a point of diversion overlap limiting condition that was identified on the transferred portions.

Recommended conditions include trust water conditions for Right 35-08370, Basin 35 conjunctive sources, measuring & annual reporting, permissible place of use, combined right limits, irrigation overlap and standard transfer conditions.
