Re: Change in Ownership for Water Right Nos: 63-11721, 63-30993, and 63-30994

Dear Water Right Holder:

The Department of Water Resources (Department) acknowledges the receipt of correspondence changing ownership of the above referenced water rights to you. The Department has modified its records and has enclosed a computer-generated report for you.

Updating the ownership record for a water right does not reconfirm the validity of the right. When processing a Notice of Change in Water Right Ownership, the Department does not review the history of water use to determine if the right has been forfeited or deliberately abandoned through five years or more of non-use. To read more about water right forfeiture, including how to protect a water right from forfeiture, please see Idaho Code §§ 42-222 and 42-223.

Please note, water right owners are required to report any change of water right ownership and any change of mailing address to the Department within 120 days of the change. Reporting forms are available from any office of the Department or from the Department's website.

If you have any questions concerning the enclosed information, please contact me at (208) 287-4920.

Hi Lori,

I received documents from Tom Baxter that are legal descriptions of property written by a survey company (see attached). I had explained to him that I would need deeds, with attachments if applicable (e.g. Exhibit A). I am unable to use these documents without a deed. The deed originally submitted included a legal description (was not labelled Ex A as noted in the deed). The legal description was cut off and did not include the township, range, or section. I plotted it assuming the location based on the POU and it only covered a small portion. Would you be able to help locate the correct deeds with legal descriptions?

Thanks,

Debbi

RE: Change in Ownership Water Right Nos: 63-11721, 63-30993, and 63-30994

Dear Interested Party:

The Department of Water Resources (Department) acknowledges receipt of your Notice of Change in Water Right Ownership (Notice).

Our review of your Notice indicates that additional information is required before the Department can process the change. The information required is indicated below:

 X Legal Description of Property – The Exhibit A attached to the deed you provided is cut off and does not provide a complete legal description, specifically the township, range, and section. Also, assuming the legal description, based on the survey calls and the place of use for water right 63-11721, it appears the property only covers a small area for this water right. If this is the case, the water right would require a split and would not include water right 63-30994. I have included a map for your benefit. The blue shape is the place of use for water right 63-11721 and the white shape is the parcel described in the deed.

Because the Department cannot process the Notice without proper documentation, we will hold any action on your notice pending receipt of the necessary information. If we do not receive the necessary information within 30 days we will return your notice and all attachments and your notice will not be processed.

Also, please note that permit holders are required to report any change of ownership and/or mailing address to the Department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Forms to assign ownership or update your address are available from any office of the Department or on the Department's website.

If you have any questions regarding this matter, please contact me at (208) 287-4920.

Sincerely,

Debbi Judd
