RE: Transfer #5839

On Feb. 11, 2000 Kent Foster submitted a transfer application for his client Pancheri Inc. . I reviewed Kent's work and found he had used an early version of a claim ,#33-2094B. I advised him that the claim had been changed to #33-2094 with no suffix. What I failed to notice was the new R-record had included a second point of diversion. The well in the NWNWSE Sec 19 T 6N R 29E was inadvertently left off the front page of the transfer application as one of the points of diversion for the 991 acre permissable place of use. This included six groundwater rights and four surface rights delivered through ditch and pipeline.

When the Adjudication staff reviewed the transfer application # 5839 they discovered the omission. I feel this was no more than a clerical error on my part and the client should not be penalized by requiring a second transfer just to add in this well site which now exists on the newly decreed right # 33-2094.

I would ask the Allocation Staff in Boise to amend this error and re-issue the transfer.
