6. GENERAL INFORMATION

- a. Describe the complete diversion system, including how you will accommodate a measuring device and lockable controlling works should they be required now or in the future:

Update 23-4073 (0.4 cfs) from 1 system and 1 POD to 4 new systems (.1 cfs each) and 6 new POD's (2 of 4 transfers). Existing POD, well & system will be abandoned. All benefit and place of use will remain the same.

- b. Who owns the property at the point(s) of diversion? U.S. Department of the Interior, Bureau of Reclamation
If other than the applicant, describe the arrangement enabling the applicant to access the property for the diversion system:

- c. To your knowledge, has/is any portion of the water right(s) proposed to be changed:

Yes No

- ☐ ☒ undergone a period of five or more consecutive years of non-use,
☐ ☒ currently used in a mitigation plan limiting the use of water under the right(s), or
☐ ☒ currently enrolled in a Federal set-aside program limiting the use of water under the right(s)?

If yes, describe:

- d. Is any portion of the water right(s) proposed to be changed currently leased to the Water Supply Bank? ☐ Yes ☒ No

- ☐ If yes and there are multiple owners, attach a Lessor Designation form.
☐ If yes, the individual owner or designated lessor must complete, sign and attach an IRS Form W-9.
(Disregard if these items are on file and ownership has not changed.)

7. **MAP** - ☒ Attach a map of the diversion, measurement, control and distribution system. Include the place of use if a split of the water right occurred. Clearly label the map with township, range, section and 1/4 1/4 of section information. You may create a map at idwr.idaho.gov, Water Rights, Water Right Transfers, File a Transfer Application, Step 2C.

8. **SIGNATURE** - The information in this application is true to the best of my knowledge. I understand any willful misrepresentations in this application may result in rejection of the application or cancellation of an approval.

9. **FEE** - ☒ The application filing fee provided in Idaho Code § 42-221.O, must be submitted with the application for transfer. Applications for changes pursuant to Idaho Code § 42-221.O.8. require a filing fee of \$50 per water right. All other application fees are based on the total amount of water proposed for transfer in Item 4; the larger fee for either cubic feet per second (diversion rate) or acre-feet per annum (storage volume). The Fee Schedule is available at www.idwr.idaho.gov, Water Right Transfers, Step 4 and in the Application for Transfer Instructions.

900 N Skyline Dr., Ste. A
Idaho Falls, ID 83402

Subject: Application for Transfer of a Water Right – Point(s) of Diversion (23-4073),
Application 2 of 4

Dear Mr. Holliday:

The Bureau of Reclamation's Palisades Dam camp was constructed in the early 1950's to provide housing for construction workers during the construction of Palisades Dam. The camp water system is currently one well with one point of diversion supplying a large water tank and system for eight houses, one recreation hall (listed as a house on water right 23-4073), three RV trailer pads, and the maintenance compound that includes two shops and an office. The original water system provided water to a much larger camp footprint with multiple dormitories, which accounts for the size of the existing system. The current system has deteriorated beyond reasonable repair and is inefficient. This includes a deteriorated water tank and porous water lines. This project will complete replacement of the current domestic water system with six wells, six points of diversion, and four total systems located throughout the current footprint, providing the same benefit of use.

The current water right (23-4073) is listed as domestic benefit of use with an annual diversion rate of .04 cfs. The existing point of diversion (POD) is located at SWSWSW, Sec. 05, Townsite 01S, Range 45E, Bonneville County. The existing well and POD will be abandoned (decommissioned) per the State of Idaho Department of Water Resources (IDWR) authorization.

The new system will include six wells supporting four individual systems to provide water for the same use as the current operations. The four systems include: 1) well #5 transfer 1 of 4, supplying water to the maintenance compound including one office and two shops; 2) well #1, transfer 2 of 4, supplying water to the recreation hall (house) and three RV trailer pads; 3) well #2 and #6, transfer 3 of 4, supplying water to four houses on Park Side Dr.; 4) well #3 and #4, transfer 4 of 4, supplying water to four houses on S Fork Dr. This application package is for 2 proposed well #1, transfer 2 of 4. This system will supply water to the recreation hall (house) and three RV trailer pads at a total diversion rate of 0.1 cfs.

83114

Per IDWR Administrator's Memorandum, Transfer Processing Policies & Procedures, 3. Requirements for an Acceptable Application for Transfer, sub bullet (3) List of Water Rights to be Changed:

"An application for transfer must list all water rights for use in a common system of diversion and distribution for which the point of diversion, place of use, period of use, or nature of use are proposed to be changed (the water rights to be transferred). Proposed changes which involve separate diversion and distribution systems must be filed as separate applications. A proposed change to the remaining portion of an existing water right subsequent to a proposed transfer requires a separate application for transfer."

Based on these guidelines, Reclamation is submitting a total of four applications for Water Right Transfer – Point (s) of Diversion, one for each individual system. Each transfer requests 0.1 cfs per system totaling 0.4 cfs under water right 23-4073, and the relevant points of diversion. Attached to each transfer is a map relevant to each proposed transfer, 23-4073 water right report, and a map of the current well and POD that will be abandoned (decommissioned).

If you have questions regarding this application please contact Mrs. Nicole Carson, Project Manager at (208) 678-0461 ext. 16, or at email ncarson@usbr.gov.

Sincerely,

Acting for

Lorri J. Gray
Regional Director
