RE: Response to February 13, 2019 Letter – City of Nampa Permit No. 63-32835

Dear Chris:

The Idaho Department of Water Resources (“IDWR”) received your February 13, 2019, letter regarding the status of the City of Nampa’s (“City”) lapsed permit, no. 63-32835. The City is requesting reinstatement of permit no. 63-32835 and subsequent licensing for reasonably anticipated future needs (“RAFN”) purposes. On June 15, 2018 and September 24, 2018, IDWR received responses to our October 25, 2017 information request.

This past fall and winter, IDWR’s RAFN municipal use review efforts were largely tied up in review of Suez Water Idaho’s Integrated Municipal Application Package (IMAP). IDWR staff is meeting the first week of April to resume our review efforts regarding permit no. 63-32835. Staff Engineer Manuel Rauhut will be the primary reviewer and point of contact. Should additional information or documentation be necessary, IDWR will reach out as we work towards resolution of this matter.

Please call or email if you have questions.

Best Regards,
