Re: Application for Permit Unacceptable for Filing (Rule 35 Application Requirements)

Dear Applicants:

Idaho Department of Water Resources (IDWR) received an Application for Permit from you for the Bagley Living Trust on March 18, 2018 to divert water from a Spring in Bonner County. Please review the enclosed information and copy of your Application and phone me at (208) 762.2816 for assistance to correct and complete the Application.

Your **corrected Application must be received no later than April 22, 2019**. IDWR will take steps to terminate your Application, if no response is received, pursuant to Idaho Code § 42-204.

Hi Shaun,

Yes – you are right. The NESE is incorrectly labelled as NWSE. I am planning an update to the PLSS in the Spring/Summer of this year and I made a note to fix this error.

I noticed on one of the attachments that the parcel number has been changed to RP....31A, rather than RP....30A. The updated parcels from Bonner County (updated last August) does indeed show the newer RP...31 number.

Danielle:

I have run across an error with a legal description in ArcMap. I'm not sure who I should contact to get this fixed.

The above attachment titled '97-XXXX BAGLEY APP Map' is a map that I provided to a Permit Applicant a few months ago. This arrived in the mail on Friday with the rest of the Application.

I noticed, while preparing to data enter and process the Application, that the current ArcMap does not show the correct legal description for the territory labeled by the Applicant on the original map. This is shown on the attachment titled '97-XXXX BAGLEY Current ArcMap'. The Government Lot 6 is correct but the correct Quarter Quarter (NE SE) has been dropped.

Also attached, is a copy of the original BLM survey for the Right bank of the Pend Oreille, which shows Govt Lot 6 including both the NW SE and NE SE in T 56N R04W S.32.

I will give you a call after lunch unless I hear from you first.

Thanks,

Shaun
