RE: Permit No. 37-8916

Dear Permit Holder:

On March 1, 2019, the Department received a Statement of Completion for Submitting Proof of Beneficial Use (proof statement) along with the \$100.00 license examination fee.

Upon review of the water right file it was apparent to me that the proof statement had already been submitted and acknowledged back in March of 2016. I am returning the proof statement recently submitted, as it is determined unnecessary based on a previous filing. The \$100.00 fee paid by Brockway Engineering PLLC, will be returned in a separate mailing within ten (10) business days.

Please contact me at (208) 287-4945, if you have any questions.

Sincerely,

Darla Block

Re: Statement of Completion 37-08916

Dear Darla:

The Statement of Completion is due for this water right on March 01, 2019. Dr. Norris has completed everything that he proposed in the permit application except for replacing the old house. I am enclosing a Statement of Completion for water right permit 37-08916 to that effect. It is not planned to remove the existing house and build another house on the lot in the near future. The Little Makawao pond was expanded by excavating as documented in the application and the storage expanded by an estimated 0.43 acre feet. The existing permitted well is functional and the irrigated acreage on the Lot has been reduced from 0.5 acres to 0.44 acres to provide mitigation for evaporation on the expanded acreage of the adjacent pond. The existing well now serves the old house which will be removed if and when the new home is built.

During 2015, the irrigation on the lot was limited to 0.24 acres to mitigate for the first fill of the expanded area of the pond. In subsequent years, the irrigation will be limited to 0.44 acres.

I am expecting that the Department will perform the beneficial use exam for this permit and I am enclosing the required fee of \$100 for that purpose.

Please contact our office if you have further questions.
