RE: Amendment Required for Application for Permit 65-23827

Dear Applicant,

On January 22, 2019, you filed an application for permit to appropriate water for an irrigation use in Section 1, Township 10 North, Range 2 East. After review of the document an amendment is required to complete the application process.

- A beneficial use of "Storage to Irrigation" for 834 af is described in Item 5. The correct storage use described in Item 5. should be Irrigation Storage and Irrigation from Storage. Both of these uses should be for the same volume.
- Administrative rules provide guidance up to 5.0 af/acre for Irrigation Storage uses. This volume per acre accounts for consumptive losses such as evaporation. Your application is for 100 acres within a 220 acre place of use. The maximum volume allowed for 100 acres is 500 af. Please include the parameters of your storage use in Item 12. This should include surface area, max depth, average depth and capacity.

Please make the appropriate amendments to reflect the changes suggested above and return the form to my office to complete processing. You may seek additional time to provide the information by making a written request to interrupt processing for up to six months. The application will be voided without a timely written reply within the next thirty (30) days. Refunds are not issued for voided applications. Please contact me at 208-334-2190 if you need more information. Thank you for your attention to these matters.

Respectfully,

Patrick Kelly
Water Rights Supervisor
