4. RENTAL REQUESTS FOR SPECIFIC WATER RIGHTS

A. Are you requesting to rent specific water rights?

Yes ☒ No ☐

If yes, specify below the elements of the water rights you are requesting to rent. If no, continue to Question 4B.

Important Information: Diversion rates and volumes sought for rent must be proportionate to the per acre diversion rates and per acre volume limits of the water right under lease contract to the Water Supply Bank. Prior to completing this section, applicants should review all water right lease contracts and any active rental agreements to determine which elements of a water right are available to satisfy a rental request. Lease and rental documents are searchable via [IDWR's website](#).

Water rights identified below must either already be leased to the Bank or a lease proposal should accompany this rental request. **Rental requests for water rights not yet leased to the Bank will be returned if companion lease applications are not provided with the rental request.** For leased rights featuring combined limits, rentals must be consistent with combined diversion rate, volume or acre limits. Combined limits should be listed on a row below water right numbers.

Water Right Elements Leased to Water Supply Bank					Leased totals, minus water right elements involved in active rental agreements, equals water right elements available for rent	Water Supply Bank Rental Request

						CFS	AF	AC

**Attach multiple copies of this page if space above is insufficient to list all water rights requested to be rented on this application.*

B. If water right conditions, combined limits, or the sum of all water right elements being requested provide an unconventional duty of water (e.g., an unusually low rate per acre or volume per acre for irrigation use), explain how your proposed rental will sufficiently accomplish your intended purposes. Attach a separate page if space is insufficient and label it **Attachment 4B**:

N/A

C. Does your rental request propose to change the nature of use for any water right(s) being rented?

Yes ☐ No ☒

If yes, explain how the water right(s) will be converted to new uses. Include the historic, consumptive use amounts for the water right being rented if you have it, as well as the new consumptive use amount for your proposed beneficial use. If space below is insufficient, attach a separate page and label it **Attachment 4C**:

Execution of the agreement and compliance with the conditions of approval authorize diversion and use of water as provided in the agreement.

A rental fee of \$1,686.00 was calculated based on the current rental rate of \$20.00 per acre-foot times a diversion volume of 84.3 acre-feet.

Please send a check for \$1,686.00 made payable to the Idaho Department of Water Resources, **together with the signed rental agreement, within 14 days** so I can complete processing.

Pursuant to the Water Supply Bank Rules, 90% or \$1,517.40 of the rental fee will be paid to the lessor(s) and 10% or \$168.60 will be retained by the Department to offset administrative costs.

If you have any questions, please contact this office at (208) 287-4800.

Sincerely,

for Water Supply Bank

Re: Review & Analysis of Application to Rent Water from the State Water Supply Bank

PURPOSE/NARRATIVE: Rental Application 1217 for Heritage Farms, LLC, received November 1, 2018, requesting to rent water rights 35-13995 & 35-13998 for another 5 years. Requested water rights were not applied to be leased back into the bank as of yet. After locating water right 35-14308 with sufficient rate and volume for the request, but available for only one year, I asked T.J. Budge if he would like me to instead use this water right for the shorter rental. He replied to move forward with the alternate for this and application 1216 for one year rentals. Rental application 1216 will have a separate review memo as it is on a different POU and out of different POD's.

AUTHORITY TO FILE: Application is signed by T.J. Budge, on behalf of Heritage Farms, LLC, accompanied with authority to act on behalf of the company. Taxlot information for the place of use is in the name of Heritage Farms, LLC. No concerns with authority to file.

WATER RIGHT VALIDITY: The leased portion of water right 35-14308 has been in the bank since 2006, before it was split from parent right 29-7122, all of which was in the bank. It was decreed in 2004. There have been a few change in ownerships and transfers since 2006. No concerns of validity.

INJURY TO OTHER WATER RIGHTS: Leased water right portion is idled in current ArcMap imagery for 2017, and the land has never been broken out for irrigation. Previous rentals on this place of use have not resulted in any known injury or petition for reconsideration. Rental and Leased POD's are within the ESPA. Modeling shows no mitigation required.

From: Row93 Col88	To: Row90 Col 93		

ENLARGEMENT OF USE: Rental is to provide additional water on the corners. No other water rights are available for the corners, equaling 19.5 acres. Rental rate requested was 0.008 cfs/ac, while the water rights on the pivot have combined limits providing for up to 0.0174 cfs/ac. Leased right is at 0.0161 cfs/ac. Rental will be at 0.0174 cfs/ac. Both have the same 4 af/ac, no enlargement of use is known to occur under this rental.

LOCAL PUBLIC INTEREST: Review staff has no information to suggest this application is inconsistent with the local public interest.

BENEFICIAL USE/CONSERVATION OF WATER RESOURCES: The rental appears consistent with the conservation of water resources in Idaho.

DEPARTMENT STAFF OR WATERMASTER COMMENTS: The location for the leased and rental PD is in Eastern Region, subject to Water District # 120 – American Falls Area, and GWD – Aberdeen-American Falls, as well as the ESPA.> SOU 4/1-10/31, HG-4, CU-3

Hi Mary –

Happy New Year!

My client forwarded me the attached notice which brought to my attention a type on rental applications 1216 and 1217 which I filed November 1, copies of which are attached. Both applications propose a start date of 4/1/2017 but should have proposed a start date of 4/1/2019. If permissible, please accept this email as a formal request to amend both applications accordingly. Let me know if you need me to amend the applications instead.

Thanks,

T.J. Budge
