James Cefalo and Rob Harris,
this is to inform you that,
Wayne Bingham
2213 S. 2400 W.,
Weston ID 83286

would like to be identified as a witness.

Spradlin picture #1 is of well house that houses one of four filtration systems and our culinary well.

Spradlin # 2 The filter and pressure pump that is in well house in picture #1, it is the first filter post pump.

Spradlin # 3 picture filtration system to garden, two filters shown here, they need to be flushed several times a day in order to water our garden. These are the third filters from the pump.

Spradlin # 4 picture is of filtration system, this is located in ground, second system from pump in picture one

Spradlin # 5 is where I have another filtration system, currently put Away for winter, this is to water lawn and trees, 4th system from pump.

Spradlin # 5 picture dated 2014 shows area supposedly irrigated but yet there are no irrigation lines visible.

Spradlin #6 was Taken 2014 on property north of 2200 south, just past Esplin residence, that shows there were no irrigation taking place that year.

Spradlin#7 property north of 2200 South, said to have been irrigated. Taken July 2015, no irrigation taking place.

Spradlin # 8 & 9 shows a vehicle (two days after our pre hearing conference), on November 30, 2018 parked at the base of Aston's pivot line, vehicle was there for sometime I also photographed it leaving and approaching the highway 36 at 3:51am.
