Application for Permit No. 65-23824

Dear Applicants:

The Department of Water Resources has received your water right application. Please refer to the number referenced above in all future correspondence regarding this application.

A legal notice of the application has been prepared and is scheduled for publication in the STAR NEWS on 3/7/2019 and 3/14/2019. Protests to this application may be submitted for a period ending ten (10) days after the second publication.

If the application is protested, you will be sent a copy of each protest. All protests must be resolved before the application can be considered for approval. If the protest(s) cannot be resolved voluntarily, the Department will conduct a conference and/or hearing on the matter.

If the application is not protested, the Department will process your application and notify you of any action taken on the application. If your application is approved, the Department will send you a copy of the permit.

Please contact this office if you have any questions regarding the application.

Sincerely,

Re: Water Right Application Incomplete - Returned

Dear Applicant:

This office received your application on February 13, 2019. The application cannot be accepted into the records of the Idaho Department of Water Resources (IDWR) until the following items are addressed:

- 14 – Map of proposed project:
 - The map included with the application does not illustrate the quarter-quarters (QQ) associated with the point of diversion (POD) and place of use (POU); suitable map is needed to verify whether or not the Domestic and Fire Protection POUs extend into NENW QQ. Attached to this letter is map illustrating Township, Range, Section, and QQs overlaid with local property boundaries. Please review the map, if deemed accurate, recommend using marker to illustrate the POD and POUs associated with the application. If either POU overlays into the NENW QQ, will need to update the Section 9 (Description of Place of Use) of the application accordingly. Note that in this proposal, the POD should be illustrated (and labeled) as a single point and the POUs should be represented as line/polygon on the map.

The original incomplete application is enclosed. Please make the necessary amendments to the original form and re-submit it within the next thirty (30) days. If IDWR does not receive your written response within thirty (30) days, a refund will be issued for this filing. This letter is an attempt to ensure that your application is complete in order to establish a priority date. You may receive future correspondence regarding more specific details of your application. IDWR forms and other information are available on the Internet at www.idwr.idaho.gov. Please consult the IDWR website or contact this office at 208-334-2190 and ask for the "office day person" if you have any questions about the necessary information or fee.

Sincerely,

Western Region Water Rights Staff
