Good afternoon Mr. Kubiak,

Thank you for sending the preference on the dates for Hearing. I will forward your concerns to Ryan Fobes at Foresite Engineering.

When property with water rights changes ownership, the water right remains with the property. The new owners must complete a Notice of Change in Water Right Ownership that includes a copy of the notarized and recorded warranty deed showing the property is now in their name. It will include the legal description of the property. I have attached the form along with instructions for completion. There is no time limit on completing this but I would encourage the property owner to do so at their earliest convenience for documentation purposes.

Thank you,

Tammy

Subject: hearing dates re: permit no. 96-9683,96-9685,96-9686

Tammy,

My preference for hearing dates are first 7-17, second 7-24, third 7-31.

Make note that I have made three requests for info from Foresite Engineering regarding the work did last fall (2018) in the water right. As of yet I have received nothing in response. Without this information I consider this timeline of 180 days from our first meeting on this weak, and could possibly consider it out of order unless I get the info soon.

On another note, I have a question; Is there a time limit regarding the transfer of a water right after a piece of land has changed hands?

Thanks,
