Application For Permit No. 95-17762

Dear Applicant:

The Department of Water Resources has received your water right application. Please refer to the number referenced above in all future correspondence regarding this application.

A legal notice of the application has been prepared and is scheduled for publication in the COEUR D ALENE PRESS on 2/21/2019 and 2/28/2019. Protests to this application may be submitted for a period ending ten (10) days after the second publication.

If the application is protested, you will be sent a copy of each protest. All protests must be resolved before the application can be considered for approval. If the protest(s) cannot be resolved voluntarily, the Department will conduct a conference and/or hearing on the matter.

If the application is not protested, the Department will process your application and notify you of any action taken on the application. If your application is approved, the Department will send you a copy of the permit.

Please contact this office if you have any questions regarding the application.

Sincerely,

Tammy Alleman

MEMORANDUM

Date: February 6, 2019
To: Water Right File 95-17762
From: smaxey
Re: 95-17762 Application Analysis

Information contained in this memo is based on the Application for Permit (95-17762) completed at IDWR Northern on February 4, 2019, review of groundwater (well), Claim 95-15289 filed in the Coeur d'Alene Spokane River Basin Adjudication (CSRBA) and information provided by Idaho Department of Lands (IDOL).

A photocopy of Application for Permit 95-17762, was amended and re-signed and dated, by Chee Chee Phillips after she received a letter from IDWR indicating the original Application was unacceptable for filing. Problems with the Application were corrected when Ms. Phillips visited IDWR Northern on 2/4/2019.

The Applicant's 95-15289 CSRBA Claim indicates the existing home on the 95-17762 Place of Use (POU) property is occupied year-round. The POU lot size is .544 acres and the Year Built is 1973 per Kootenai County. The CSRBA Claim (95-17289) indicates the well was not placed into service until June 1988. Information in the 95-17762 Application indicates the water system includes a pressure tank that is typical for household domestic water systems.

The information cited above indicates that 'Domestic' is appropriate, instead of 'Irrigation', to describe the purpose of water use for Application 95-17762. Subtraction of non-irrigatable rooftops, driveways, etc. from the lot size brings the irrigatable area below the limit (.5 acres) allowed under the definition for Domestic use. The existence of the home between 1973, and the start of well use in June 1988, indicates that Coeur d'Alene Lake was the only source of readily available Domestic water during this period. The Applicant's description of the flower boxes, etc. also indicates that use of Coeur d'Alene Lake water is also likely to occur inside, or in close proximity to, the home or other buildings on the property.

The Applicant has been advised of the need to update the IDOL Encroachment Permit to include the existing water intake line.

Hello Shaun,

The encroachment permit # we have on file for that property is L-95-S-3193.

However, we show no records of them having a water intake line. It also appears their dock is out of compliance. I do not think they have made application with us recently, I am not seeing anything in the file to indicate recent activity.

Please let me know if you need anything else.

Mike:

The attachment is a completed Public Records Request for the Encroachment Permit Number on the dock and/or waterline on Kootenai parcel 48N04W-11-8615 at Half Round Bay on the East side of Lake Coeur d'Alene.

Chee Chee Phillips is the current owner of the parcel. She is applying for a Water Right Permit to use water from the Lake.

Thanks,

Re: Application for Permit Unacceptable for Filing (Rule 35 Application Requirements)

Dear Applicant:

Idaho Department of Water Resources (IDWR) received a photocopy of an incomplete Application for Permit from you on December 31, 2018, to divert water from Coeur d'Alene Lake in Kootenai County. The Application is unacceptable for filing because it does not bear your original signature, the \$100 filing fee is not included, no labeled map is included, and the development period (Page 2 #13) has been left blank. Contradictory information about Domestic and Irrigation use is also shown in the Application.

Please review the enclosed information and Application and phone me at (208) 762.2816 for assistance to correct and complete your Application.

Your **corrected Application must be received no later than February 26, 2019**. IDWR will take steps to terminate your Application, if no response is received, pursuant to Idaho Code § 42-204.

Respectfully,
