CONDITIONS OF APPROVAL

1. Rights 21-13151, 21-13261, 22-13506 and 22-14057 when combined shall not exceed a total annual maximum diversion volume of 45,800 af and the irrigation of 111,210 acres.
2. Place of use is within the boundary of Fremont-Madison Irrigation District pursuant to Section 43-323, Idaho Code.
3. The boundary encompassing the place of use for this water right is described with a digital boundary as authorized by Idaho law. The data comprising the digital boundary are stored in the electronic document management system of the Department and are incorporated into this approval by this reference. A map depicting the place of use is attached to this approval document to illustrate the place of use described by the digital boundary.
4. Water diverted under this right is used for irrigation in combination with storage water delivered by Fremont Madison Irrigation District.
5. Use of water under this right may be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 100.
6. The right holder shall install and maintain acceptable measuring devices at the authorized points of diversion, in accordance with Department specifications, or shall obtain an approved variance from the Department.

WATER RIGHT NO. 21-13261

7. In any year when Fremont Madison Irrigation District (FMID) storage water, through a private lease of storage, is used for purposes other than irrigation outside of the combined boundaries of FMID, Henrys Fork Ground Water District and Madison Ground Water District, the total combined volume of water available for diversion under water rights 21-13151, 21-13261, 22-13506 and 22-14057 shall be reduced by an amount equal to the volume of storage water used for purposes other than irrigation.
8. Use of water under this right, when combined with all other direct flow or storage water rights, shall provide no more than 0.02 cfs per acre nor more than 5.0 acre-feet of water per acre per irrigation season.
9. The issuance of a license for this right does not constitute an approved exchange. Any use of water diverted under this right in exchange for other water rights must be approved under Section 42-105, Idaho Code.
10. Place of use does not include federal public lands unless authorized in writing by the United States Bureau of Reclamation.
11. This right does not grant any right-of-way or easement across the land of another.

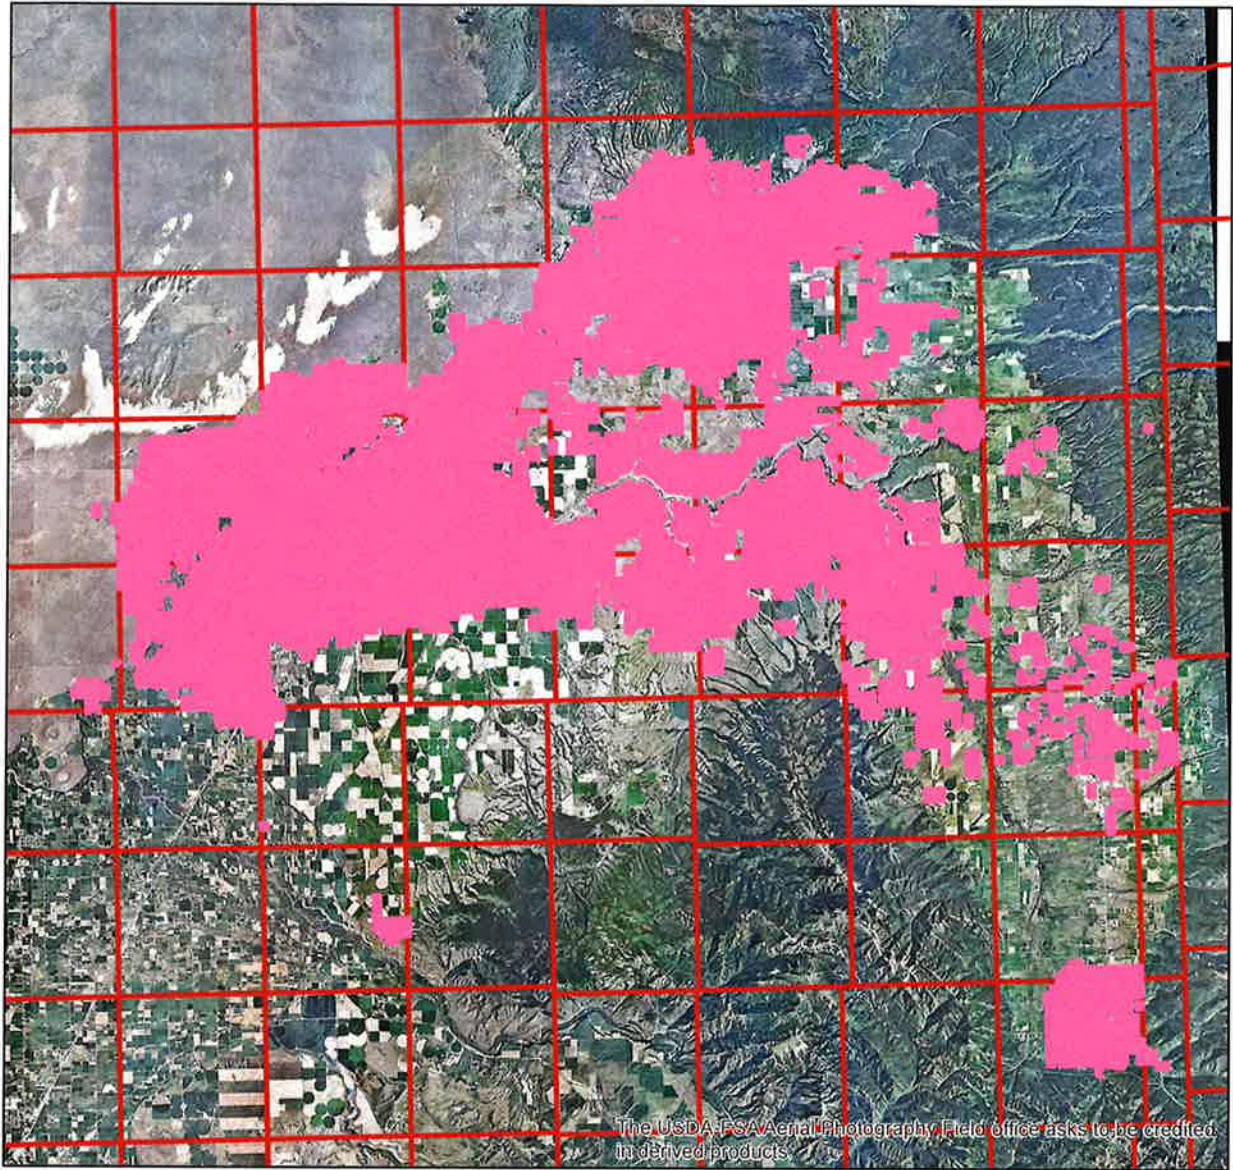

This license is issued pursuant to the provisions of Section 42-219, Idaho Code. The water right confirmed by this license is subject to all prior water rights and shall be used in accordance with Idaho law and applicable rules of the Department of Water Resources.

Signed this 15th day of February, 2019.
