

State of Idaho
Department of Water Resources
Permit to Appropriate Water
NO. 84-12293

Priority: November 13, 2018

Maximum Diversion Rate: 0.02 CFS

This is to certify, that STEVE RIEGER And/Or
JANELLE RIEGER
170 HARRISBURG RD
KAMIAH ID 83536

has applied for a permit to appropriate water from:

Source: SPRING

Tributary: SINKS

and a permit is APPROVED for development of water as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>
STOCKWATER	01/01 to 12/31	0.02 CFS

LOCATION OF POINT(S) OF DIVERSION:

SPRING NE1/4NW1/4NW1/4 Sec. 17, Twp 34N, Rge 04E, B.M. IDAHO County

PLACE OF USE: STOCKWATER

Twp	Rge	Sec	NE				NW				SW				SE				Totals
			NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	
34N	04E	17						X											

CONDITIONS OF APPROVAL

1. Proof of application of water to beneficial use shall be submitted on or before **February 01, 2021**.
2. Subject to all prior water rights.
3. Project construction shall commence within one year from the date of permit issuance and shall proceed diligently to completion unless it can be shown to the satisfaction of the Director of the Department of Water Resources that delays were due to circumstances over which the permit holder had no control.
4. Stockwater is for 15 horses and 35 cattle.
5. This right does not grant any right-of-way or easement across the land of another.

This permit is issued pursuant to the provisions of Section 42-204, Idaho Code.

Signed this 2nd day of February, 2019.

DOUGLAS JONES, Northern Regional Manager

State of Idaho
Department of Water Resources

RE: Permit No. 84-12293

Permit Approval Notice

Dear Permit Holders:

The Department of Water Resources ("Department") has issued the enclosed permit authorizing you to establish a new water right. Please be sure to thoroughly review all the conditions of approval listed on your permit. The conditions include requirements that you must accomplish, such as timely submittal of proof of beneficial use or installation of a measuring device, as well as information about how your water use may be administered, such as regulation by a watermaster in a water district. Failure to comply with the conditions of approval may result in your permit lapsing or being canceled.

The permit is a PRELIMINARY ORDER issued pursuant to Rule 730 of the Department's Rules of Procedure (IDAPA 37.01.01.730). It can and will become a final order without further action by the Department unless a party petitions for reconsideration, files exceptions, or requests a hearing as described in the enclosed information sheet.

The final step in the water right process is issuance of a water right license. To receive a water right license, you must first commence the excavation or construction of your diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is complete. In addition, you must divert and use water to the full extent intended and submit a *Statement of Completion for Submitting Proof of Beneficial Use* by the date shown in condition no. 1 of your permit. The Department will send you a *Proof Due Notice* approximately 60 days prior to the date listed in condition no. 1 of your permit.

You may also require approvals from other Department programs, such as Ground Water Protection, Safety of Dams, or Stream Channel Protection, to accomplish your proposed development. Please call or visit any Department office or see the Department's website at idwr.idaho.gov for more information about these programs.

Also, please note that permit holders are required to report any change of ownership and/or mailing address to the Department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Forms to assign ownership or update your address are available from any office of the Department or on the Department's website.

If you have any questions concerning the enclosed information, please contact the Northern Region Office at (208) 762-2800.

Sincerely,

Douglas Jones, P.E.
Northern Regional Manager

Administrative Assistant 1

EXPLANATORY INFORMATION TO ACCOMPANY A PRELIMINARY ORDER

(To be used in connection with actions when a hearing was **not** held)

(Required by Rule of Procedure 730.02)

The accompanying order or approved document is a "**Preliminary Order**" issued by the department pursuant to section 67-5243, Idaho Code. **It can and will become a final order without further action of the Department of Water Resources ("department") unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:**

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. **Note: the petition must be received by the department within this fourteen (14) day period.** The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after: (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the Department or the Water Resource Board is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the Department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its service date if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) The petition for reconsideration is disposed of; or
- (b) The petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

MEMORANDUM

To: Water Right Application 84-12293 & 84-12294

From: Adam Frederick AF

Date: 1/8/2019

Re: Application for a Permit to Appropriate Water within the Salmon and Clearwater River Basins.

Re: Regional Analysis and Recommendation in accordance with Water Appropriation Rules (IDAPA 37.03.08.040.05).

Water Supply Information

Water from the spring on the applicant's property should be available as long as spring produces water. Because of the small quantity of water for stockwater use, it should not adversely affect MSF in the area.

Good Faith, Delay, or Speculative Information

The applicant plans to divert water for his/her own property and there are no known issues with any other party.

Financial Resources Information

No significant resources required.

Local Public Interest

The Idaho Department of Fish & Game and the Department of Environmental Quality have been asked to comment by the Idaho Department of Water Resources. Department of Environmental Quality responded by letter that this proposed action should not be allowed to impair existing beneficial uses of groundwater and interconnected surface water. Idaho Department of Fish & Game did not respond.

Injury to Other Water Rights

None anticipated.

Recommendation

The Northern Region recommends proceeding with the processing of this water right application.

December 13, 2018

Mr. Adam Frederick
Idaho Department of Water Resources
7600 North Mineral Drive, Suite 100
Coeur d'Alene, Idaho 83815

Subject: Water Right Application #84-12293 and #84-12294

Dear Mr. Frederick:

DEQ received a request for comment along with a copy of two applications for water appropriation permits to appropriate water from two springs. Each request was for 0.04 cfs. The request was from the same individuals in approximately the same area. DEQ's comments apply to both applications.

The springs are located on private property in Idaho County near an unnamed tributary to Lolo Creek in section 17, range 04E, and township 34N. The water will be diverted from the springs via piping for 138 feet at one spring, and 154 feet at the other into tire water troughs. The appropriated water will be used for stock watering from January 1 to December 31. Assuming all federal, state and local permits have been obtained, regulations met, and reviews completed, we offer the following comments.

Because we assume any water of the state which occurs beneath the surface of the earth in a saturated geological formation of rock or soil to be ground water (Idaho Code 58.01.02.010.45), we assume there to be hydrologic gradient connectivity to surface waters of the State. It is the policy of the State of Idaho Ground Water Management Plan that existing and projected beneficial uses of ground water and interconnected surface water be maintained and protected and degradation that would impair beneficial uses of ground water and interconnected surface water not be allowed.

Thank you for the opportunity to comment on your application. If you have any questions regarding the Idaho Water Quality Standards, please call us at (208) 983-0808, or by email at Daniel.Stewart@deq.idaho.gov

Sincerely,

A handwritten signature in black ink that reads "Daniel D. Stewart".
