2. The Lessor has filed a completed application to lease water rights described below into the Water Supply Bank on forms supplied by the Idaho Department of Water Resources and received by the Department on December 27, 2018.
3. The Director of the Idaho Department of Water Resources has reviewed the application for compliance with the Water Supply Bank rules and has approved the Lease subject to conditions listed below.

NOW, THEREFORE, in consideration of the mutual covenants and contracts herein contained, and other good and valuable consideration, the receipt of which is hereby acknowledged, the parties hereto agree as follows:

1. **WATER RIGHTS:** The Lessor shall lease and the Board shall accept into the Bank the Applicant's water rights described as follows:

8. Acceptance of a right into the bank does not, in itself, confirm the validity of the right or any elements of the water right, or improve the status of the right including the notion of resumption of use. It does not preclude the opportunity for review of the validity of this water right in any other Department application process.
9. In accordance with Idaho Code § 42-248 and § 42-1409(6), all owners of water rights are required to notify the Department of any changes in mailing address or change in ownership of all or part of a water right. Notice must be provided within 120 days of the change.
10. If a water right leased into the Water Supply Bank is sold or conveyed during the lease term, and if the leased right was rented, the rental proceeds will be disbursed in the following manner regardless of any arrangements between the buyer(s) and seller(s) to the contrary:
 - a. Rental payments will go to the lessor(s) of record at the beginning of the rental season, even if the Department processes a Notice of Change in Water Right Ownership during the rental season.
 - b. New lessor(s) of record will receive payment for any subsequent rental seasons.
11. The water right(s) is leased to the bank subject to all prior water rights and shall be administered in accordance with Idaho law and applicable rules of the Department of Water Resources.
12. The quantity of water under this right for stockwater use shall not exceed 13,000 gallons per day.
13. The quantity of water decreed for this water right for stockwater use is not a determination of historical beneficial use.

FOR WATER RIGHTS 63-2414, 63-5034, and 63-5047B**

Dear Lessor:

Water rights **63-2414, 63-5034, and 63-5047B** were leased into the Water Supply Bank (Bank) as of December 27, 2018, in accordance with the enclosed executed lease contracts. **Your water rights, as described on the lease contracts, are considered leased into the Bank and should remain unused until they are formally released from the Bank.** More information and further restrictions placed on your water rights while leased can be found in conditions of acceptance of the lease contracts. Read the conditions of acceptance carefully.

The rights will automatically be released from the Bank on **December 31, 2023**, unless the rights are released earlier by the Water Resource Board (Board). On behalf of the Board, the Department of Water Resources (Department) can evaluate an early release of the lease contracts upon your request. To release the water rights from the Bank prior to the release date, submit a written request on the *Request to Release a Water Right from the Bank* form. This form is available on our public website at www.idwr.idaho.gov. **Please note your water rights may not be available for immediate release if they have been rented or are being considered for a future rental. Furthermore, it is at the discretion of the Department whether or not a water right can be released early from a lease contract.**

If you have questions regarding this matter, please contact this office at 287-4800.

Sincerely,

Water Supply Bank

Jean,

Good morning! You might consider adding to your review that these rights authorize use of a source ultimately tributary to the Boise River within the fully appropriated reach upstream of Star Bridge. The rights are also within the Idaho City Bs 63 Area of Concern, which might be worth noting in your review checklists. The main concern noted for this area relative to these particular rights is the fact that they are tributary to the fully appropriated reach upstream of Lucky Peak. This fact makes them valuable rights for rental purposes. There are no local area concerns that come to mind for this lease. Thank you for the opportunity to comment.

Narrative: The Department received this application on December 27, 2018. The application was signed by Andrew Brassey, registered agent. The applicant wishes to place the entire right in the Bank. This right was decreed in 2004 and has been in the Bank since 2008. Forfeiture is not an issue. This is a irrigation & stockwater right with a diversion rate that is limiting not additive. This right is currently within WD 63. Region comments: These rights authorize use of a source ultimately tributary to the Boise River within the fully appropriated reach upstream of Star Bridge. The rights are also within the Idaho City Bs 63 Area of concern. The main concern is the fact that they are tributary to the fully appropriated reach upstream of Lucky Peak.
