## MEMORANDUM

**To:** Water Right File No. 96-9700  
**From:** Ashley Ritter  
**Date:** January 25, 2019  
**Re:** In-house Beneficial Exam Review

---

A statement of completion for submitting proof of beneficial use was received by the Idaho Department of Water Resources on December 13, 2018 for Water permit 96-9700.

After reviewing the information available, and using all in-house imagery resources (GIS NAIP and ESRI imagery, sentinel data, google earth imagery) irrigation use is not able to be verified.

It is recommended that a field exam be performed to verify beneficial use.

*I have confirmed that we do not have adequate imagery to perform an in-house exam*

*Daniel A. Nelson 1-29-19*

This is the clearest image available and irrigation is unable to be verified.

To Whom it May Concern

I started our water rights  
paper in our names not thinking  
that our property is in a Trust  
I talked with Douglass Jones  
at the regional office & he thought  
maybe at the time of field  
inspection we might be able  
to put it into the Trust  
or should we just leave it  
as it is?

thank You
