PROOF ACKNOWLEDGEMENT LETTER

RE: Permit Nos. 96-9700 & 96-9701

Dear Permit Holder(s):

The Department acknowledges receipt of the proof of beneficial use forms submitted for the above referenced permits. The next step in the process of developing water rights is for the Department to conduct field examinations to determine and confirm the uses being made of the water.

Please be advised that Section 42-248, Idaho Code, requires you or the owner of this water right to maintain current ownership and address records on file with the Department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any Department office or at the Department's website at www.idwr.idaho.gov.

If you have any questions concerning the field examinations, please contact the Northern Region Office of the Department located in Coeur d'Alene at (208) 762-2800.

Sincerely,

Darla Block

MEMORANDUM

To: Water Right File No. 96-9701
From: Ashley Ritter

Re: In-house Beneficial Exam Review

A statement of completion for submitting proof of beneficial use was received by the Idaho Department of Water Resources on December 13, 2018 for Water permit 96-9701.

After reviewing the information available, and using all in-house imagery resources (GIS NAIP and ESRI imagery, sentinel data, google earth imagery) irrigation use is not able to be verified.

It is recommended that a field exam be performed to verify beneficial use.

I have confirmed that there are no
imagery photos that provide adequate
views of the property to determine
if the amount of acres irrigated.
A field visit is necessary.

To Whom it May Concern

I started our water rights
paper in our names not thinking
that our property is in a Trust
I talked with Douglass Jones
at the regional office & he thought
maybe at the time of field
inspection we might be able
to put it into the Trust
or should we just leave it
as it is?

thank You
