STATE OF IDAHO

Ident. No. 63-34602WATER RESOURCES DEPARTMENT
WESTERN REGION

DEPARTMENT OF WATER RESOURCES APPLICATION FOR PERMIT To appropriate the public waters of the State of Idaho

1. Name of applicant(s) Richard and Odette Maskell Family Trust Phone 208-853-1454
 Name connector (check one): ☒ and ☐ or ☐ and/or
 Mailing address 4336 N Star Vista Ln City Eagle
 State ID ZIP 83616 Email RichardMask@Hotmail.com
2. Name of representative, if any PAT THACKER Phone 208-283-6525
 Mailing address 1033 W Newfield Dr City Eagle
 State ID ZIP 83616 Email thackerop@gmail.com
- a. ☐ Send all correspondence for this application to the representative and not to the applicant OR
☒ Send original correspondence to the applicant and copies to the representative.
- b. ☐ The representative may submit information for the applicant but is not authorized to sign for the applicant OR
☐ The representative is authorized to sign for the applicant. Attach a Power of Attorney or other documentation.
3. Source of water supply well, proposed groundwater which is a tributary of na
4. Location of point(s) of diversion:

Twp	Rge	Sec	Govt Lot	1/4	1/4	1/4	County	Source	Local name or tag #
5N	1E	33		NE	NE		ADA	well	Proposed

5. Water will be used for the following purposes:

12/26/18 2/10/19
 Amount 0.15 for IRRIGATION purposes from 3/1 to 11/15 (both dates inclusive)
 (cfs or acre-feet per year)

Amount 0.02 for Stock water purposes from 1/1 to 12/31 (both dates inclusive)
 (cfs or acre-feet per year)

Amount 0.04 for Domestic purposes from 1/1 to 12/31 (both dates inclusive)
 (cfs or acre-feet per year)

Amount 0.21 for 2/10/18 2/10/19 purposes from na to na (both dates inclusive)
 (cfs or acre-feet per year)

6. Total quantity to be appropriated is (a) 0.16 cubic feet per second (cfs) and/or (b) na acre-feet per year (af).

7. Proposed diverting works:

- a. Describe type and size of devices used to divert water from the source. IRRIGATION pipe, well
- b. Height of storage dam na feet; active reservoir capacity na acre-feet; total reservoir capacity na acre-feet. If the reservoir will be filled more than once each year, describe the refill plan in item 12. For dams 10 feet or more in height AND having a storage capacity of 50 acre-feet or more, submit a separate Application for Construction or Enlargement of a New or Existing Dam. Application required? ☐ Yes ☐ No
- c. Proposed well diameter is 6 inches; proposed depth of well is 225 feet.
- d. Is ground water with a temperature of greater than 85°F being sought? ☐ Yes ☐ No
- e. If well is already drilled, when? na; drilling firm na; well was drilled for (well owner) na; Drilling Permit No. na

Received by AK Date 8/16/2018 Time 10:30 AM Preliminary check by ARB
 Fee \$ 100.00 Received by AK Receipt No. W046659 Date 8/16/2018
 Add Fee: \$ 275.00 AK W047047 1/4/2019

8. Description of proposed uses (if irrigation only, go to item 9):

- Hydropower; show total feet of head and proposed capacity in kW. 5-10 head, horses, cattle, sheep
- Stockwatering; list number and kind of livestock. _____
- Municipal; must complete and attach the Municipal Water Right Application Checklist.
- Domestic; show number of households 1
- Other; describe fully. _____

9. Description of place of use:

- If water is for irrigation, indicate acreage in each subdivision in the tabulation below.
- If water is used for other purposes, place a symbol of the use (example: D for Domestic) in the corresponding place of use below. See instructions for standard symbols.

TWP	RGE	SEC	NE				NW				SW				SE				TOTALS
			NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	
5N	1E	33	5																
5N	1E	33	D																
5N	1E	33	S																

Total number of acres to be irrigated: 5

10. Describe any other water rights used for the same purposes as described above. Include water delivered by a municipality, canal company, or irrigation district. If this application is for domestic purposes, do you intend to use this water, water from another source, or both, to irrigate your lawn, garden, and/or landscaping? yes

- Who owns the property at the point of diversion? Richard and Odette family trust
- Who owns the land to be irrigated or place of use? same
- If the property is owned by a person other than the applicant, describe the arrangement enabling the applicant to make this filing: _____

12. Describe your proposal in narrative form, and provide additional explanation for any of the items above. Attach additional pages if necessary. want to be able to water livestock, irrigate pasture, landscape and domestic use

13. Time required for completion of works and application of water to proposed beneficial use is 5 years (minimum 1 year).

14. **MAP OF PROPOSED PROJECT REQUIRED** - Attach an 8½" x 11" map or maps clearly identifying the proposed point of diversion, place of use, section #, township & range. The map scale shall not be less than two (2) inches equal to one (1) mile.

The information contained in this application is true to the best of my knowledge. I understand that any willful misrepresentations made in this application may result in rejection of the application or cancellation of an approval.

Application for Permit No. 63-34601 & 63-34602

Dear Applicant:

The Department of Water Resources has received your water right application. Please refer to the number referenced above in all future correspondence regarding this application.

A legal notice of the application has been prepared and is scheduled for publication in the IDAHO STATESMAN on 2/7/2019 and 2/14/2019. Protests to this application may be submitted for a period ending ten (10) days after the second publication.

If the application is protested, you will be sent a copy of each protest. All protests must be resolved before the application can be considered for approval. If the protest(s) cannot be resolved voluntarily, the Department will conduct a conference and/or hearing on the matter.

If the application is not protested, the Department will process your application and notify you of any action taken on the application. If your application is approved, the Department will send you a copy of the permit.

Please contact this office if you have any questions regarding the application.

Sincerely,

Anna Kaiser
Administrative Assistant

NOTICE OF PROPOSED CHANGE OF WATER RIGHT**TRANSFER NO. 82710**

MICRON TECHNOLOGY INC, PO BOX 6, BOISE, ID 83706; has filed Application No. 82710 for changes to the following water rights within ADA County(s): Right No(s). 63-10208, 63-11293, 63-12420, 63-31183, 63-8992, 63-9029, 63-9357; to see a full description of these rights and the proposed transfer, please see www.idwr.idaho.gov/apps/wr/QueryNewTransfers/QueryNewTransfers.aspx. The purpose of the transfer is to change a portion of the above rights as follows: The purpose of this transfer is to define a common place of use for all of the water rights included to reflect an integrated system. The applicant also proposes to update the points of diversion for all ground water rights in the transfer to reflect 4 current wells and two proposed wells. Water will be used at the Micron facility just east of Interstate 84 and south of Highway 21, approximately 7.3 miles southeast of downtown Boise.

NOTICE OF PROPOSED CHANGE OF WATER RIGHT**TRANSFER NO. 81844**

CITY OF KUNA, PO BOX 13, KUNA, ID 83634-0013; has filed Application No. 81844 for changes to the following water rights within ADA County(s): Right No(s). 63-3266, 63-8215, 63-11970, 63-12394, 63-12552, 63-31481; to see a full description of these rights and the proposed transfer, please see www.idwr.idaho.gov/apps/wr/QueryNewTransfers/QueryNewTransfers.aspx. The transfer proposes to add the existing wells as points of diversion to all of the City of Kuna's municipal water rights. This will allow the City to divert water as authorized by these six rights from all the wells tied in to the municipal water system. Two additional wells are proposed to be drilled on either one or two of the following 3 quarter-quarter sections: SWNW and SENW of section 22 T02N R01E, and SESW of section 15 T02N R01E. To clarify, it is possible that both wells may be drilled in the same quarter-quarter section, or that one well will be drilled on each of two of the listed quarter-quarter sections.

Permits will be subject to all prior water rights. For additional information concerning the property location, contact Western Region office at 208-334-2190; or for a full description of the right(s) or proposed transfer (s) please see www.idwr.idaho.gov. Protests may be submitted based on the criteria of Idaho Code §§ 42-203A and 42-222. Any protest against the approval of the application(s) must be filed with the Director, Dept. of Water Resources, Western Region, 2735 Airport Way, Boise, ID 83705 together with a protest fee of \$25.00 for each application on or before 02/25/2019. The protestant must also send a copy of the protest to the applicant.

RE: Application for Permit of water right no. 63-34601 and no. 63-34602

Dear applicants,

I am writing you today in regard to your water right applications, nos. 63-34601 and 63-34602, which both propose to divert 0.16 cfs from wells for irrigation, stock water, and domestic uses. I recently spoke with you over the phone to clarify the intent of the applications and I received your email on 12/11/18 requesting that both of your applications be amended to the rate of 0.03 cfs/acre.

Based on our phone conversations and email correspondence, the total amount of water listed in item 6 should be changed to reflect the additional rate for irrigation increasing your total rate to 0.21 cfs.

Please review these changes outlined below to ensure that the application accurately describes your project. Enclosed is a copy of your original application. Changes to your application should be made by crossing out the old values, writing in the new values, and adding the date and your initials next to the changes.

Item 5. Purpose of water use. Please modify the amount for irrigation use from 0.10 to 0.15 to reflect the rate of 0.03 cfs per acre.

Item 6. Total quantity to be appropriated should be 0.21 cfs. This change will affect your application fee rate.

As we discussed, the change increases the application fee (which is based on the diversion rate) to the next fee level. The new fee is \$250 each. You paid \$100 dollars each with the original submissions. To resume processing of your application, please sign and return the enclosed amended applications along with the additional \$150 for each application (\$300 total). Furthermore, the priority date of your water right will be advanced to reflect the date that the Department receives the amended applications and the additional fee.

Additional Item: Well Drilling Fee Upgrade. In our recent phone conversation, I asked if you would be using your existing well in regards to application 63-34602 which initially proposed a new well as per Item 7e on the permit application. Our phone conversation indicated that you will be using the existing well (Tag # D0066085).

The additional proposed uses of irrigation and stock water from your well does require a well drilling fee upgrade. According to the records of Idaho Department of Water Resources (IDWR), your well was

drilled in 2014 under a \$75 domestic well drilling permit through Coonse Well Drilling. A \$75 drilling permit covers a well that does not require water right approval from IDWR. This is typically a single-family domestic well. The well drilling fee for a well requiring a water right is \$200 instead of \$75. Per Well Construction Standards Rules (IDAPA 37.03.09.045.05.b), IDWR must collect the unpaid balance of \$125 for a well drilled under those circumstances.

Once I receive your amended application and water right filing fee (\$300), I will forward your applications to advertising. Advertising your applications in the local newspaper provides an opportunity for the public to protest. You will be notified if your applications are protested. Your water right applications maybe advertised prior to submitting the well permit upgrade fee (\$125).

Please let me know if you have any questions regarding the content of this letter. I can be reached by phone at 208-334-2190 or by email at allen.bradbury@idwr.idaho.gov. IDWR forms and other information can be found at www.idwr.idaho.gov.

Please submit your response in writing within **thirty (30) days** of the date of this letter. The applications will be voided without a timely written response. Refunds are not issued for voided applications. Thank you for your time and for your attention to these matters.

Respectfully,

Allen Bradbury

Allen,

Our drilling report shows that water was first encountered at 190 ft., and that the well was drilled to a completed depth of 400 ft. However casing/liner was only installed to 245 ft.

Regarding lot 7, I think we could reasonably assume that it would be the same, as it adjoins our lot, on the west side.

Thanks for sending the Assignment form for lot 7. While the sales contract has been signed by the buyer, unfortunately buyers can also change their minds until final closing takes place (in this case, early in December). As soon as they close, we will immediately get the form submitted to you.

regards,

Richard Maskell

Hi Richard,

Just to reiterate what we talked about on the phone. When we advertise your permit application, we are required to give a range of depths for the water bearing zone to be appropriated. As you mentioned, your well driller should be able to come up with those numbers based on wells nearby. Just email me that range of numbers and we can continue on to advertisement of your applications.

Also, you mention that lot 7 block 1 of the Starview Estates Subdivision is in the process of selling. To keep the existing application in process I would recommend that you file an assignment of permit. This paperwork transfers the ownership of the permit over to the new owner. I've attached a copy for you convenience.

Thank you for your attention to these matters.

Regards,

Allen Bradbury
