RE: Application for Permit 63-34655

Dear Mr. Crutcher:

The Idaho Department of Water Resources (IDWR) is seeking written comment and/or recommendations from your agency regarding the above referenced water right application. A copy of the application is enclosed with this email for your reference. Please review the application, complete the enclosed recommendation form, and submit your reply, if any, to this office by the protest deadline of **February 25, 2019**.

If your agency desires to formally protest approval of this application, you may do so by filing a written protest along with a \$25.00 filing fee for each protested application by the protest deadline.

IDWR will assume your agency does not object to this application if a timely response is not received. Please contact me if you have any questions regarding the application. Thank you for your help.

Sincerely,

Re: Water Right Application Incomplete - Returned

Dear Applicant:

This office received your application on December 14, 2018. The application cannot be accepted into the records of the Idaho Department of Water Resources (IDWR) until the following items are addressed:

- 2 – Representative:
 - Gary Johnston is listed as both a trustee and a representative on the application. It appears that Mr. Johnston was erroneously listed as representative, please remove as representative. As trustee, Mr. Johnston will receive all information and may sign on behalf of the trust.
- 4, 7, 12 – Location of point(s) of diversion (POD), Proposed diverting works, Narrative:
 - Between Items 4, 7, and 12, it is unclear what the intent of the application is. Existing wells identified in Item 4, then new well noted in Item 7. Item 4 must describe the locations of POD(s) associated with this application, both existing and new (proposed) wells. Item 7 appears to suggest that a new well will be the only source for this application, but location is unclear. Please add narrative to Item 12 that describes what well(s) (new and existing) will be used with the right, and where the new well will be located.
- 14 – Map of Proposed Project
 - The location of the proposed well (POD) is not illustrated or labeled on the included map, also need to label the place of use boundary (POU). Attach an 8½" x 11" map clearly identifying (i.e. labeled and illustrated) the proposed POD(s), POU(s), section #, township & range.

The original incomplete application is enclosed. Please make the necessary amendments to the original form and re-submit it within the next thirty (30) days. If IDWR does not receive your written response within thirty (30) days, a refund will be issued for this filing. This letter is an attempt to ensure that your application is complete in order to establish a priority date. You may receive future correspondence regarding more specific details of your application. IDWR forms and other information are available on the Internet at www.idwr.idaho.gov. Please consult the IDWR website or contact this office at 208-334-2190 and ask for the "office day person" if you have any questions about the necessary information or fee.

Sincerely,

Western Region Water Rights Staff
