PROOF DEFICIENCY LETTER

RE: Permit No. 63-34066

Dear Permit Holder(s):

The Department received the proof of beneficial use (proof) form you submitted for the above referenced permit. A license examination fee is required for permits which use a ground water (well) source and have a total rate of diversion of 0.05 (cfs) cubic feet per second or more. Please address the following item:

- The proof form was not accompanied by the required \$50.00 license examination fee. This permit authorizes a maximum diversion rate of 0.05 cfs (cubic feet per second) from ground water requiring a license examination fee of \$50.00.

To provide you with information regarding the permitted water uses and diversion rate, enclosed is a copy of this permit for your reference.

Please submit the required fee at your earliest convenience. I will hold this matter for (15) days from the date of this letter. You can make the check out to IDWR. Please return this letter with your check so the Department knows what to receipt the money for, and mail them to the address located in the letterhead at the top of this letter.

If you have any questions concerning this matter, please contact me at (208) 287-4945.

Sincerely,

Dear Permit Holders:

The Department received your Proof of Beneficial Use (Proof) form on January 22, 2019. There is a License examination fee associated with the filing of this form, and that fee is \$50.00 based on the Maximum Diversion Rate of 0.05 cubic feet per second (cfs) listed on your permit. Your proof is not acceptable without the fee, and will not be considered received until the \$50.00 fee is receipted by the Department.

Please submit the required fee at your earliest convenience before the proof due date of **October 01, 2021** to avoid the possibility of your permit lapsing. If you have any questions concerning this matter, please contact me at (208) 287-4945.

If the fee is not received the form will be returned to you and no action will be taken.

Sincerely,
