INSTRUCTIONS

This form has been prepared to assist new owners of property to comply with the requirements of Sections 42-248 and 42-1409(6), Idaho Code. Section 42-248 requires certain property holders to notify the Department of Water Resources (IDWR) of any change in mailing address or ownership of all or part of a water right record on file with IDWR. Section 42-1409(6) provides that new property owners must notify IDWR of any change in ownership of a water right during an adjudication of water rights. Required claims may be filed by a new owner

Separate brochures are available from IDWR describing the adjudication of water rights and the requirement to notify IDWR of changes in ownership. Please contact your nearest IDWR office, or call 1-800-451-4129, if you would like more information or need help completing this form. Please attach additional sheets to the form if you require additional space to describe or explain any of the items on the form.

1. If there are water rights associated with the property, the seller should be able to provide you with the water right or adjudication claim number(s). Please enter these number(s) at **Item 1**. If you or the seller believes there are water rights for the property but the numbers are unknown, you may wish to contact IDWR for assistance in identifying the water rights for the property in question. If claims for the rights are required, and have not been filed, IDWR will so advise you
2. The information described at **Item 2** is required, since IDWR cannot process the requested change without documentation of ownership. The preferred types of documentation are shown; contact IDWR if you have difficulty obtaining this information. Do not obtain a new survey for purposes of this form before contacting IDWR.
3. Please provide the name and address of the former owner of the water right and/or adjudication claim at **Item 3**.
4. The name, mailing address, and telephone number of the new owner(s) is entered at **Item 4**. Please indicate the relationship between multiple owners by using the connector 'and', 'or', or 'and/or'. If an 'and' is used, all parties must sign this form. If an 'and/or' or 'or' is used, all parties may sign. However, only one of the named parties is required to sign.
5. At **Item 5**, please provide the date the property in question was acquired. This may be the date of "closing" in the case of a real estate transaction or the date of court order for other types of ownership changes.
6. You may be purchasing only a portion of the total water right held by the seller. This means the water right held by the seller may be "split" to provide your share of the right in question. Be sure to include a description of the portion of the water right you have purchased at **Item 6**.

Please provide as much detail as possible concerning your water right include the number of homes, irrigated acreage if more than 1/2 acre is irrigated, type and number of stock if your right is for stockwater, etc. In the absence of information to the contrary, IDWR will assume the intent is to split the rights *proportionately*.

7. The new owner(s) must sign the form in the space(s) provided at **Item 7**. Corporations and other organizations must submit a list of directors or officers demonstrating the authority of the director or officer to sign the form.
8. There is no filing fee. When complete, you should retain a copy and return the original of the form to the IDWR office nearest you:

INSTRUCTIONS

This form has been prepared to assist new owners of property to comply with the requirements of Section 42-1409(7), Idaho Code. This statute provides that new property owners notify the Department of Water Resources (IDWR) of any change in ownership of a water right during an adjudication of water rights, and if a claim for the water right has not been filed to file the needed claim(s).

Separate brochures are available from IDWR describing the adjudication of water rights and the requirement to notify IDWR of changes in ownership. If you would like any of these brochures or if you have questions about completing this form please contact your nearest office of IDWR or you may call 1-800-451-4129 (toll-free).

The first line of the form asks for the date of closing so IDWR will have a record of the effective date of the property transfer.

The second line of information requires the legal description of the property being transferred. This information is **ESSENTIAL** and should be available from the documents that will be present at the time of closing. The first two lines of the legal description **MUST** be completed. IDWR's records are based upon legal descriptions using township, range, section and fractions of a section descriptions, and this information must be included on the form. If you also have available a legal description based upon a townsite or subdivision and lot and block number, please also include this additional information. A lot and block legal description is **NOT** a substitute for the township, range, section and fraction of a section description.

After completing the legal description, if all water is supplied by a public service water supply you may check the first box; complete the name, address and telephone information for yourself, the new owner; sign the form in the space provided and return the form to the IDWR office nearest you.

If there are water rights associated with the property, the seller should be able to provide you with the water right number(s). The water right number(s) for the property are to be put in the space provided at the second box on the form. If you or the seller believe there are water rights for the property but the numbers are unknown, then you may wish to call or come into an office of IDWR for assistance in identifying the water rights for the property involved. If claims for the property have not been filed you will be so advised by IDWR.

After the water right number(s) for the property has been entered on the form, complete the name and address information for **BOTH** the former owner/seller and for yourself, the new owner, in the spaces provided. Please also include your telephone number. If the property you have purchased is only part of the property owned by the former owner/seller, you may be purchasing only part of the total water right held by the seller. This means the water right held by the seller must be split so you get your proportionate share of the water right. Be sure to include a description of the portion of the water right you have purchased. The seller should be able to help you describe the portion of the water right for the property you have purchased.

If the former owner/seller will sign the form and the seller is shown as the claimant of the water right in IDWR's records, then you do not need to attach proof of ownership of the land or the water right. The seller should know if the original claim was filed by him, or if the seller has filed a change in ownership so the seller is shown as the claimant of the water right in IDWR's records. If the seller is not going to sign the form then you must attach some proof of ownership of the property described at the top of the form or proof of ownership referencing the specific water right(s) for the property.

The new owner must sign the form in the space provided. If the former owner/seller is available to sign the form please do so in the space provided.

When complete, the new owner and the former owner/seller should each retain one of the copies and return the original of the form to IDWR. You may return the form to the IDWR office nearest you or to: Idaho Department of Water Resources, Statehouse Mail, Boise, ID 83720-9000, Attention: Adjudication Bureau.

Re: Water Rights for Lot 2 Granite Heights Sub. A portion of Tract F Government Lot 11. 0300/CR

1). Marlo and Gary Glauser hereby agree to transfer 23.04% of our Irrigation water right allotment for irrigation purposes out of the South Fork of the Payette River T8N R5E Sec.6 Lot 11 SESW (amount in accordance with acreage ie. 6.5=100%, So the total allotted portion equals 23.04%), to Jim Cook and Nina Walker.

a). Water Right # 65-13072

2). In exchange for the pro-rated share of the water, we the buyers, grant an easement for the current diversion point described on file with Water Resources Board.

3). Jim Cook and Nina Walker grant use of surplus hot water from Granite Heights lot #2 to Marlo and Gary Glauser. We understand that an easement will have to be agreed on after Jim Cook and Nina Walker design their hot water system..

4). Marlo and Gary Glauser, grant non exclusive use of the irrigation equipment and pump, and will share in the cost of maintenance and utilities in proportion to how much each party uses such equipment.

5). Buyers have a copy, and have read Department of Water Resources Water Right Profile Report dated 16 August, 1996. No. 65-13072.

6). The use of the irrigation equipment will not be transferrable to subsequent owners without the express permission of Marlo and Gary Glauser.

Dear Mr. Cook & Ms. Walker:

On October 7, 1996, I sent you a letter requesting that you send a subdivision map showing the location of your land along with additional information. A copy of the letter is enclosed.

Before we can change your water right, we will need to have this information.

If you have any questions regarding this matter, please call me at (208) 327-7947.

RE: WATER RIGHT NO. 65-13072

Dear Mr. Cook & Ms. Walker:

I have received your Notice of Change of Water Right Ownership. However, we need a more specific description regarding the 23.04% portion of water right that you received. Please provide us with more details so that we can make the changes needed in our database. Specifically, the attached document reads "... (amount in accordance with acreage i.e. 6.5=100%, so the total allotted portion equals 23.04%) ...". However, the water right is licensed for irrigation of only 1.5 acres. I need to know how much of the 1.5 acres belongs to you and how much is retained by the Glausers. Please send a subdivision map showing the location of your land along with the other information requested.

If you have any questions regarding this matter, please call me at (208) 327-7947.

F. FLOW CALCULATIONS

✓ Additional Computation Sheets Attached

Measured Method:

Allow Domestic D/I internal only (clean-up) .02 cfs

Stockwater: Table 1 Exh 15A 3 horses 0-25 = .02 cfs

Allow .03 cfs for 1 1/2 acres irrigation (.02 x 1.5 acres = .03 cfs)

U of I nozzle discharge (see attachment) = .24 cfs @ max. capacity

G. VOLUME CALCULATIONS

1. Volume Calculations for Irrigation:

* $V_{IR} = (\text{Acres Irrigated}) \times (\text{Irrigation Requirement}) = 1.5 \times 3.0 = 4.5$

$V_{DR} = [\text{Diversion Rate (cfs)}] \times (\text{Days in Irrigation Season}) \times 1.9835 = .03 \times 215 \times 1.9835 = 13.0$

$V = \text{Smaller of } V_{IR} \text{ and } V_{DR} = 4.5$

2. Volume Calculations for Other Uses:

Allow Domestic D/I internal only .6 Afa

Stockwater: $V_{IR}: (3 \text{ head} \times 12 \text{ gpd} \times 365) / 325,850 = .04$

$V_{DR}: .02 \text{ cfs} \times 365 \times 1.9835 = 14.5$

$V: .04$

Domestic	1-01 to 12-31	.02	.6
Stockwater	1-01 to 12-31	.02	.1

The irrigation season and volume have been changed to the current recommended time and estimate of the consumptive irrigation requirement for crops in that area.
[3.5 afa per acre]

The stockwater volume recommendation has been adjusted to the minimum standard. Per the May 8, 1980 Administrative Memorandum No. 6, volume should be shown with no more precision than tenths.

RE: PERMIT NO. 65-13072

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have questions concerning this matter, please feel free to contact the WESTERN Regional Office in Boise at (208)334-2190.

PROOF DUE NOTICE

RE: PERMIT NO. 65-13072

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before November 1, 1992. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Karen L. Gustafson

RE: Water Right No. 65-13072

Dear Water Right Holder(s):

Department water right records show that you divert water from the Snake River or its tributaries under a water right that has a priority date later than December 29, 1976. This is the priority of the established minimum stream flow of the Snake River at the Weiser Gage (Weiser) in the amount of 4,750 cubic feet per second.

Because of the continuing drought conditions in the Snake River Basin, department hydrologists project that during 1992, there could be periods when the required minimum flow will not be satisfied due to low flows of the Snake River. The department urges you to not divert at a higher rate than authorized by your water right and to not use your right in any manner different than authorized. In addition, when the minimum flow will not be satisfied or is not being satisfied, you are required to cease diverting water under your water right, because your right is of later priority than the minimum stream flow at Weiser.

If the department determines the minimum flow will not be satisfied, the department will advise you and will provide as much lead time as possible in requiring that you temporarily cease your diversion of water. The greatest likelihood for this to occur is during a period from mid-June to late June.

While the department expects good cooperation from junior water right holders, water users should be aware that Section 42-352, Idaho Code, provides for penalties of up to \$100 per day for unauthorized diversions of water.

The department has contacted both the Idaho Power Company and the U.S. Bureau of Reclamation with respect to the timing of storage releases from upstream reservoirs for flow enhancement purposes. This type of coordination could minimize the impact on

RECORDED

existing water users and reduce the need to curtail diversions.

The department has scheduled public information meetings relative to this potential regulation as follows:

Mountain Home - June 4, 1992 - 10:00 a.m. - gymnasium at
North Elementary School, 290 E. 12th N.

Caldwell - June 4, 1992 - 7:00 p.m. - Ballroom in the
Student Union Building, Albertson College of Idaho,

If you have questions concerning this letter or wish to provide the name of a different contact person or address to receive department correspondence, please contact the department.

RE: PERMIT NO. P65-13072

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

Please note the condition of approval which requires you to obtain supplemental water for your irrigation use, since there is not enough unappropriated water for your use during the entire irrigation season. A supplemental source of water supply likely can be obtained by the purchase or lease of stored water from Cascade Reservoir. To inquire, you should check with the U.S. Bureau of Reclamation in Boise.

Please note the requirement that as a permit holder you must commence the excavation or construction of diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The enclosed blue card must be completed and returned to this office as soon as you commence construction, no later than one year from the date the permit was approved.

We have enclosed a form entitled "Instructions for Proof of
