Application for Permit No. 78-12502

Dear Applicants:

The Department of Water Resources has received your water right application. Please refer to the number referenced above in all future correspondence regarding this application.

A legal notice of the application has been prepared and is scheduled for publication in the COTTONWOOD CHRONICLE on 1/17/2019 and 1/24/2019. Protests to this application may be submitted for a period ending ten (10) days after the second publication.

If the application is protested, you will be sent a copy of each protest. All protests must be resolved before the application can be considered for approval. If the protest(s) cannot be resolved voluntarily, the Department will conduct a conference and/or hearing on the matter.

If the application is not protested, the Department will process your application and notify you of any action taken on the application. If your application is approved, the Department will send you a copy of the permit.

Please contact this office if you have any questions regarding the application.

Sincerely,

Anna Kaiser

RE: Water Right Application # 78-12502

Dear Mr. Miller,

The Idaho Department of Fish and Game (Department) has been contacted by Kerry Carroll regarding a new application for an irrigation water right on the Little Salmon River. The proposed place of use is Idaho County Sec. 20, Township 23N, Range 01E. The applicant plans to pump water from the Little Salmon River for irrigation at a maximum diversion rate of 0.02 cfs from 02/15 to 11/30.

The purpose of these comments is to assist the decision-making authority by providing technical information addressing potential effects to fish, wildlife, and habitats and how any adverse effects might be mitigated. It is not the purpose of the Department to support or oppose this proposal. Resident species of fish and wildlife are property of all Idaho citizens, and the Department and the Idaho Fish and Game Commission are expressly charged with statutory responsibility to preserve, protect, perpetuate and manage all fish and wildlife in Idaho (Idaho Code 36-103(a)). In fulfillment of our statutory charge and direction as provided by the Idaho Legislature, we offer the following comments.

The Little Salmon River supports important fisheries for the citizens of Idaho. Fish populations include species listed under the federal Endangered Species Act. Anadromous populations of Chinook salmon and steelhead as well as bull trout occur at all life stages at or near the proposed point of diversion. We request fitting the pump intake with a 3/32-inch mesh intake screen (NOAA Fisheries standard) to prevent removing fish from the river. The Department's Salmon Screen Shop constructs screens for water diversions in anadromous waters and may provide a fish screen to the applicant free of charge. The contact phone number in Salmon, ID is (208)756-6022. The applicant would be responsible for installing the screen and maintaining functioning condition. If the applicant agrees to install and maintain a proper fish screen on the intake, we have no other concerns.

Keeping Idaho's Wildlife Heritage

If you have questions or need additional information please contact Bill Bosworth in the Southwest Region office at (208)465-8465 or bill.bosworth@idfg.idaho.gov.

Sincerely,

Subject: Water Right Application #78-12502

Dear Mr. Frederick:

DEQ has received a request for comment on the approval of a water right application to draw 0.056 acre feet from the Little Salmon River for domestic irrigation. The source is located at Township 23N, Range 01E, and Section 20 near Pollock, Idaho.

Assuming all federal, state, and local permits have been obtained, regulations met, and reviews completed, we can offer the following comments. The Little Salmon River, which is in assessment unit 17060210SL001_05, is listed in Category 4c of Idaho's 2014 Integrated Report as not supporting the beneficial use of cold water aquatic life due to habitat alteration. At no time should the proposed action be allowed to impair existing beneficial uses when stream flow is adequate to sustain existing aquatic life.

Thank you for the opportunity to comment on your application. If you have any questions regarding the Idaho Water Quality Standards or the conditions listed above, please contact me at (208) 983-0808, or by email at daniel.stewart@deq.idaho.gov. Sincerely,

A handwritten signature in black ink, appearing to read "Daniel D. Stewart".

RE: Application for Permit 78-12502

Dear Applicant(s):

The Idaho Department of Water Resources (IDWR) is reviewing your application for a new water permit from a source within the Salmon River basin. Additional information is needed to fully evaluate your proposal. IDWR is working with other agencies of the State of Idaho regarding projects requiring new water right approval within the Salmon River basin.

Please see the enclosed attachment about additional information for your application. Page 1 of the attachment outlines the legal basis and reasons for this request. That page also provides contact information for the other state agencies that will be involved in this process. Please provide written comments from those other state agencies regarding your application.

Page 2 of the attachment lists Water Appropriations Rules 40.05.c-g. Rule 40.05.g will be covered by written comments from the other state agencies. **Rule 40.05c-f is not required** for your application. Please see enclosure for guidance on addressing the local public interest requirement of Rule 40.05. g.

Please provide the requested information within the next thirty (30) days. Alternately, you may seek up to six months additional time to provide the information. **The application will be voided if a timely written response is not received.** A refund of the filing fee will not be issued for a voided application.

IDWR forms and other information are available on the Internet at www.idwr.idaho.gov. Please contact me at 208-334-2190 if you have any questions. Thank you for your attention to this matter.

Re: Water Right Application Incomplete - Returned

Dear Applicant:

This office received your application on 7/5/18 and 7/23/18. Both application forms are incomplete. However, a draft application, based on information taken from both forms previously submitted, is enclosed for your review. Please carefully review this form, make any necessary edits, sign (both Judy and Kerry signatures required), and return for further processing.

The following summarizes the revisions of the 7/23/18 application form incorporated into the enclosed draft form:

- **1 - Name or Address of Applicant**
 - Changed names listed for applicants to match signatures on 7/23/18 application form. If the names listed on the draft application are not your legal names, please correct on the form before returning.
- **2 - Name or Address of Representative**
 - Added city name Pollock to the representative's address.
 - The first box indicating "The representative may submit information for the applicant but is not authorized to sign for the applicant." since a Power of Attorney was not submitted.
- **4 - Point of Diversion(s)**
 - Added Idaho as county point of diversion is located within. Little Salmon River was added as the Source for the point of diversion listed.
- **5 - Proposed Use**
 - Season of use updated to 2/15 to 11/30 based on IDWR standard irrigation season of use for your area.
- **6 - Total Quantity**
 - 0.02 cfs added to 6a based on 0.02 cfs irrigation use is only water use proposed.
- **9 - Place of Use**
 - Updated acres to be irrigated from 0.056 to 0.6 based on item # 12 information and IDWR significant figure standards.

- **11 – Property Owner**
 - Updated who owns the property where the point of diversion and place of use are to state “applicant” for clarification. If this is not correct, please edit this item before returning the application.
- **13 – Time**
 - Time to submit proof of beneficial use updated to 1 year based on 7/3/18 application requesting just a few months to develop project (1 year is the minimum amount of time that you can request).
- **13 - The Map**
 - Included a map with POD marked and POU labeled. Please return this map with a complete signed form.

The 7/23/18 incomplete application is enclosed. Please review the draft application, make any necessary corrections, sign, and submit within the next thirty (30) days. If IDWR does not receive your written response within thirty (30) days, a refund will be issued for this filing. This letter is an attempt to ensure that your application is complete in order to establish a priority date. You may receive future correspondence regarding more specific details of your application. IDWR forms and other information are available on the Internet at www.idwr.idaho.gov. Please consult the IDWR website or contact this office at 208-334-2190 and ask for the “office day person” if you have any questions about the necessary information or fee.

Sincerely,

Western Region Water Rights Staff

Re: Water Right Application Incomplete - Returned

Dear Applicant:

This office received your application on 7/5/2018. The application cannot be accepted into the records of the Idaho Department of Water Resources (IDWR) until the following items are addressed:

- **Item No. 1 – Mailing address:**
 - Based on phone conversation on 7/6/2018, remove the “6352 Enramada Dr” California address and just use the noted Idaho PO Box.
- **Item No. 3 – Source of water supply:**
 - Please correct Item No. 3 to note that the Little Salmon River is a tributary of the Salmon River.
- **Item No. 4 – Location of point(s) of diversion:**
 - Please correct the legal description for the point of diversion; T23N R01E Sec. 20 NESW is not consistent with the hand drawn map provided with the application.
- **Item No. 8 – Water will be used for the following purposes:**
 - Based on phone conversation on 7/6/2018, the application is only seeking water for irrigation. Stockwater and Domestic use references in Item No. 8 should be removed.
- **Item No. 9 – Description of place of use:**
 - Please correct the legal description for the place of use; T23N R01E Sec. 20 NESW is not consistent with the hand drawn map provided with the application.
- **Item No. 14 – Map of proposed project required:**
 - Please attached a correct map: Include an 8½” x 11” map that clearly identifies the proposed point of diversion, place of use, section #, township, and range. A photocopy of a USGS 7.5 minute topographic quadrangle map is preferred or you may use the mapping tool found on our website <http://maps.idwr.idaho.gov/map/>. To use the tool click on the “Change layers” button at the top of the screen, select the background drop down menu and add the 2017 NAIP background. Then click on the “Locate” button to find the location of the proposed project.
