

MEMORANDUM

Date: January 8, 2019
To: Transfer 82854
From: Brian Normandeau
Re: Review & Evaluation of Sufficiency of Information

This transfer proposes to change the place of use for water right 35-13523. The rearrangement of acreage is intended to reflect the current irrigation practices. These changes are proposed after the approval of transfer #82853.

Authority to File:

The application was signed by Seth Cannon, who is registered with the Secretary of the State as the agent for Cannon Shelley Property, LP. Cannon Shelley Property, LP is the current water right owner per IDWR records, and the land owner per Bingham County parcel information.

Water Right Validity:

The water right involved was decreed in 2002. Aerial imagery does not indicate any five year period of nonuse since that time. No issues identified.

Injury to Other Water Rights:

There is no proposed change to the point of diversion. The only change is to the place of use. No issues identified.

Enlargement of Use:

The diversion rate, total volume and total acres remain unchanged. No issues of enlargement identified.

Local Public interest:

No issues identified.

Beneficial Use/Conservation of Water Resources:

No issues identified.

Review of the application finds there is no clear inconsistency with criteria set forth in Section 42-222 Idaho Code preventing processing of this application.
