13 Narrative: The Department received this application of October 29, 2018. The applicant wishes to sell the water right but will place it in the Bank to protect from forfeiture. A subdivision was put in the area that the ditch went thru to deliver water to the land. Owner is no longer able to access the water from the unnamed stream without a major and expensive battle in court. This right was decreed in 2008 and has been in the Bank since 2014. Forfeiture is not an issue. This right is NOT currently within a WD.

The Department received your additional payment for the ownership change of water right 22-2033A and has processed the ownership change.

We are now in the process of reviewing your application to lease water right 22-2203A to the Water Supply Bank.

You marked on the application that you would like to sell the water right. That option is being reviewed by the Idaho Water Resource Board. In the meantime, Item #5 of the WSB Lease application asks the years when the use of water will be suspended, for a maximum of 5 years (2019-2023).

Please respond as soon as possible so I can continue reviewing the lease application. Please contact me if you have any questions. Thank you.
