RE: Water Right Splits

Dear Water Users:

I recently met with Donald and Judy Lord to discuss their water rights. As I was reviewing their rights, I found some errors and inconsistencies in the amounts listed on their rights. These errors appear to have been generated when the water rights were split from the original water rights held by William and Delone McKnight in the early 1990s. As I reviewed the other water rights splits from the McKnight rights, I found similar errors. This letter is intended to provide a short history of the water rights associated with your properties and provide a copy of the corrected water rights.

The SESE of Section 34, T07N, R24E covers 40 acres and has been owned by various people over the years. The entire quarter-quarter was still under single ownership in 1993. At that time, it was owned by William & Delone McKnight. Shortly thereafter, McKnight conveyed a 6.9-acre portion of the property to Shirley Wainwright. This 6.9-acre parcel is currently owned by Raymond and Lesley Morgan. The original McKnight property was split three more times. Currently there are five separate parcels within the SESE of Section 34. For purposes of my analysis, I have kept the Donald Lord and David Lord parcels lumped together.

In 1993, when McKnight owned the entire 40 acres, there were four water rights associated with the property: two Big Lost River rights (34-708A, 34-709A) and two ground water rights (34-2281B, 34-2361B). All of the rights in combination authorized 38 acres of irrigation. Three of these rights (34-708A, 34-709A and 34-2281B) were reviewed and decreed by the Snake River Basin Adjudication ("SRBA") Court in 1998. These rights were each split into four pieces after the partial decrees were issued. Water right 34-2361B, on the other hand, was split into two pieces before the decree was issued by the SRBA Court.

Water rights 34-13719 and 34-13720 (the split pieces of water right 34-2361B) were decreed by the SRBA Court in 2002. I have enclosed copies of all of the decrees for your reference.

The partial decree for right 34-13719 listed William & Delone McKnight as the owners of record and described 31 irrigated acres. The partial decree for right 34-13720 listed Shirley Wainright as the owner of record and described 7 irrigated acres. Because water right 34-13720 was split from right 34-2361B prior to review and decree by the court, the Department does not have the authority to correct the splits for right 34-13720. All of the other water right splits occurred after the issuance of partial decrees for the respective rights. Therefore, the Department has the authority to correct any calculation errors in those water right splits.

The enclosed spreadsheet shows how the water right should have been split. As you can see, the elements of water right 34-13720 were not changed. Further, there were only slight revisions made to the rate (cfs) and volume (af) elements for the rights. In other words, the previous water right splits of the rate and volume elements were mostly correct. The largest errors were found in the split of irrigated acres. In most cases, the total authorized irrigated acres were too small.

I apologize that the ownership changes were not completed correctly the first time. Thank you for your patience with this correction process. Reports for your corrected water rights are enclosed. Please feel free to contact me if you have any questions.

Sincerely,

James Cefalo
