APPLICATION FOR PERMIT
To appropriate the public waters of the State of Idaho

Ident. No. 95-17699

1. Name of applicant(s) Peggy L. Emtman Phone 509-787-3288
Mailing address 20802 Redwood City Quincy
State WA ZIP 98848 Email peggyemtman@gmail.com
Name connector (check one): ☐ and ☐ or ☐ and/or
2. Name of representative, if any Rick Emtman Phone 509-432-1259
Mailing address 2783 Old Moscow Road City Pullman
State WA ZIP 99163 Email rickemtman@gmail.com
a. ☐ Send all correspondence for this application to the representative and not to the applicant OR
☒ Send original correspondence to the applicant and copies to the representative.
b. ☒ The representative may submit information for the applicant but is not authorized to sign for the applicant OR
☐ The representative is authorized to sign for the applicant. Attach a Power of Attorney or other documentation.
3. Source of water supply Ground Water/Well which is a tributary of NA
4. Location of point(s) of diversion: 11/23/2018

Twp	Rge	Sec	Govt Lot	1/4 NE 1/4	1/4	County	Source	Local name or tag #
48N	5W	25	36	NE	NE	Kootenai	Ground Water	00010107
			1	RE 11/23/18				

5. Water will be used for the following purposes:
Amount 0.02 0.04 for Domestic purposes from JAN 1ST to Dec 31ST (both dates inclusive)
(cfs or acre-feet per year)
Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per year)
Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per year)
Amount 0.04 for RE 11/23/2018 purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per year)
6. Total quantity to be appropriated is (a) 0.02 cubic feet per second (cfs) and/or (b) _____ acre-feet per year (af).

7. Proposed diverting works:
a. Describe type and size of devices used to divert water from the source. Well Pump for shared well connected to 2 homes. One home for this application.
b. Height of storage dam _____ feet; active reservoir capacity _____ acre-feet; total reservoir capacity _____ acre-feet. If the reservoir will be filled more than once each year, describe the refill plan in item 12. For dams 10 feet or more in height AND having a storage capacity of 50 acre-feet or more, submit a separate Application for Construction or Enlargement of a New or Existing Dam. Application required? ☐ Yes ☐ No
c. Proposed well diameter is 8" tap to 6" inches; proposed depth of well is 200 feet.
d. Is ground water with a temperature of greater than 85°F being sought? ☐ Yes ☐ No
e. If well is already drilled, when? July 20 1999, drilling firm J&J Drilling Inc; well was drilled for (well owner) Boks Emtman (now COA Lake LLC); Drilling Permit No. 00010107

Received by Sm Date 11-23-18 Time _____ Preliminary check by _____
Fee \$ 100.00 Receipted by Jo Receipt No. N033919 Date 11-23-18

8. Description of proposed uses (if irrigation only, go to item 9):
- Hydropower; show total feet of head and proposed capacity in kW. _____
 - Stockwatering; list number and kind of livestock. _____
 - Municipal; must complete and attach the Municipal Water Right Application Checklist.
 - Domestic; show number of households Two One RS 11/23/2018
 - Other; describe fully. _____

9. Description of place of use:
- If water is for irrigation, indicate acreage in each subdivision in the tabulation below.
 - If water is used for other purposes, place a symbol of the use (example: D for Domestic) in the corresponding place of use below. See instructions for standard symbols.

RS 11/23/2018

WELL, WATER RIGHT AND MUTUAL EASEMENT AGREEMENT

THIS AGREEMENT is made this 1st day of November, 1999, by and between ROBERT EMTMAN and GLORIA EMTMAN, husband and wife, and their heirs, successors and assigns, and RAYMOND EMTMAN and PEGGY EMTMAN, husband and wife, and their heirs, successors and assigns.

WHEREAS, ROBERT EMTMAN and GLORIA EMTMAN own the following described real property located in Kootenai County, Idaho (hereinafter "Servient Property"), to wit:

Lot 5 and the southwest 20 feet of Lot 6, Westshore Tracts, in Section 25,
Township 48 N, Range 5 West of the Boise Meridian,

AND WHEREAS, RAYMOND EMTMAN and PEGGY EMTMAN, husband and wife, own the following described real property, which is adjacent to the above described parcel, situated in Kootenai County, Idaho (hereinafter "Benefitted Property"), to wit:

Lot 6, Westshore Tracts, in Section 25, Township 48 N, Range 5 West of the
Boise Meridian.

EXCEPT the southwest 20 feet thereof.

The purpose of the agreement and easement is to allow the owner of the Benefitted Property to access and use water from the private water well located on the above-described Servient Property, and to provide for the sharing of expenses therefor, including, but not limited to, electricity charges for the well pump, maintenance and repairs, insurance and the like.

The owners of the Servient Property, for themselves, their heirs, successors and assigns, hereby grant to the owners of the Benefitted Property, their heirs, successors and assigns, the right to use the water from the well for purposes associated with supplying domestic water to the residence situated on the Benefitted Property and an easement over, under and across said Servient Property for purposes of installation, maintenance, updating or repair of water lines running from the pressure tank of the water well.

The owners of the Benefitted Property, for themselves, their heirs, successors and assigns, hereby grant to the owners of the Servient Property, their heirs, successors and assigns, an easement over, under and across said Benefitted Property for purposes of installation, maintenance, updating or repair of electrical lines running from the electrical meter/service box to the water well facilities.

Landscape/outdoor watering is an allowable use, however, it is the intent of the parties that the well water be used for indoor residential purposes and use for outdoor purposes is only allowed so long as it does not impair indoor residential use. Other primary purposes and/or additional users may be added to the well system only upon agreement of all parties.

This agreement sets forth provisions for paying the electrical costs of operating the pump, paying the cost of maintaining and repairing the well, pump and water supply line, additional connections to the well, costs of water quality tests, and which portions of the well system constitute "shared items."

NOW, THEREFORE, the parties agree as follows:

1. The well, pressure tank, structures surrounding each item, wiring, and the water lines connecting the well and the pressure tank shall be considered "shared items", and the responsibility for the operation, maintenance and repair thereof shall be shared equally by the parties. Costs of maintenance, replacement or repairs for "non-shared" items, consisting of the individual water lines from the pressure tank to the party's property and/or residence, shall be the responsibility of the owner of the property/residence served by said non-shared water lines.

2. The parties will share equally the costs for maintenance and repair of the well, shared water lines, wiring, and pump. Further, the parties shall share equally for water quality testing at least annually, or as otherwise deemed necessary by either party. The owner of the Servient Property shall be responsible for annual water quality testing, and shall submit a copy of the invoice(s) therefor to the owner of the Benefitted Property, who shall promptly, or within thirty (30) days, pay the prorata share therefor to the owner of the Servient Property. In the event that water quality testing or unsatisfactory results thereof are deemed to be related to items described herein as "non-shared items", the then owner of said "non-shared" item shall be responsible for the costs related to the testing and any remedial actions deemed necessary to restore the water quality to acceptable standards. The owner of the Servient Property shall also be responsible for securing repairs to the shared items, unless another party agrees to do so. The party securing the repairs shall submit a copy of the invoice(s) therefor to the other parties hereto, who shall promptly, or within thirty (30) days, make reimbursement for their prorata share of the repair costs.

3. The electrical service to the well will be connected to the electrical meter serving

the Benefitted Property. The operating costs of the well shall be shared equally between the parties using the well. Operating costs shall include electricity for operating the pump, costs of well, pump or shared water supply line maintenance and repairs, and the like. The owner of the Benefitted Property shall, at least annually, notify the owner of the Servient Property of the cost of electricity for running the well pump, and the owner of the Servient Property shall promptly, or within thirty (30) days, reimburse the owner of the Benefitted Property for one-half of the electricity cost. If, however, water usage rights are conveyed to additional parties, the pro-rata ratio shall be adjusted accordingly. If the parties hereto or any subsequently added users do not agree, the allocation of costs shall be referred to binding arbitration.

4. The owner of the Benefitted Property may do what is necessary to maintain the water supply line crossing under, over or across the Servient Property, but must return the land to its regular topographical condition as soon as possible after repairs and/or replacements are made.

5. The right to use the well water is granted for so long as the easement is in force and has not been abandoned. The parties agree that the owners of the Servient Property make no guarantees of the continued viability of the well and the continued ability of the well to produce water.

6. The parties agree that if the owners of the Benefitted Property, or their heirs, successors or assigns, cease to use the water supply line and the water from the well for a term of five (5) years, then the easement will be deemed abandoned for all purposes, and will terminate, and rights of the owners of the Benefitted Property to use water from the well will terminate, and will revert to the owners of the Servient Property or their successors.

7. The parties hereto agree and covenant that they, their heirs, successors or assigns will not construct, maintain, or suffer to be constructed or maintained upon the property within one hundred (100) feet of the well thereon, so long as the same is operated to furnish water for public consumption, any potential source of contamination, such as cesspools, sewers, privies, septic tanks, drainfields, manure piles, garbage of any kind or description, barns, chicken houses, rabbit hutches, pigpens, or other enclosures or structures for the keeping or maintenance of fowls or animals, or storage of any liquid or dry chemicals, herbicides, or insecticides.

8. In the event the well becomes unserviceable or is deemed unfit for use, then each party shall have the opportunity to declare this agreement null and void with no further obligation hereunder, by filing with the Kootenai County Recorder, a notarized declaration stating such, and serving a copy thereof, by certified mail, on the other partie(s) hereto; or, in the alternative, by mutual agreement of the parties, a new well may be drilled or alternative source of water secured for the benefit of both parties, and this agreement shall

continue as applicable, substituting the new well for the one subject to this agreement.

9. If any party no longer wishes to use water from the well, that party may withdraw on thirty (30) days written notice to all other parties. Provided, that easements granted for the functioning of the well, electrical supply, or water transport and utilities shall remain in effect until five (5) years from the date they cease being used, absent written agreement of all parties benefitting therefrom, in which case they may be extinguished immediately by recording said written agreement.

10. If either party fails to perform its duties under this Agreement, the other party may serve notice of default upon the defaulting party. The notice shall be served personally or by any method of delivery or mailing with return receipt, and shall specify the facts of default, the steps to be taken to remedy the default, and that the default must be cured within 30 days. If the default is not cured within thirty (30) days from the date the notice is served, the party giving notice may apply to a court of competent jurisdiction to enforce this Agreement or may refer the matter to arbitration. Service is deemed to occur on the date of personal service or three days after the date, as shown on the return receipt for the mailing or delivery, that the notice was mailed or sent, whether or not it is actually received. The court or arbitrator may enter an order directing a money judgment, an injunction as necessary to effect compliance with this Agreement, or an order, on such terms as are just, terminating this Agreement.

11. All claims, disputes and other matters in question between the parties arising out of this Agreement shall, upon demand by either party, be determined by arbitration. In the event the parties are unable to agree on a neutral arbitrator, each party shall choose an arbitrator and the two arbitrators shall select a third arbitrator. The arbitrator shall have the authority to award interest on any sum determined owing and to award attorney fees and arbitration costs to the prevailing party. The cost of the arbitrator shall be borne as ordered by the arbitrator, pursuant to the terms of the Agreement..

12. The parties agree that the prevailing party in any action hereunder shall be entitled to reimbursement for all costs and expenses, including attorney's fees and legal expenses, incurred in connection with the enforcement of this agreement. Either party may pay someone else to help enforce this instrument, and, if said party prevails in enforcement, arbitration or court proceedings, he/she shall be reimbursed for the costs and expenses of such enforcement. Costs and expenses include attorney fees and legal expenses whether or not there is a lawsuit, including attorney's fees and legal expenses for bankruptcy proceedings (and including efforts to modify or vacate any automatic stay or injunction), appeals, arbitrations, and any anticipated post-judgment collection services. The non-prevailing or defaulting party shall also pay all court costs and such additional fees as may be directed by the court.

This agreement shall run with the land and shall be binding on all parties having or

acquiring any right, title or interest in the land described above, or on which the subject well is located, and shall inure to the benefit of each owner thereof.

WITNESS our hands this 1st day of November, 1999.

Application For Permit No. 95-17699

Dear Applicant:

The Department of Water Resources has received your water right application. Please refer to the number referenced above in all future correspondence regarding this application.

A legal notice of the application has been prepared and is scheduled for publication in the COEUR D ALENE PRESS on 12/6/2018 and 12/13/2018. Protests to this application may be submitted for a period ending ten (10) days after the second publication.

If the application is protested, you will be sent a copy of each protest. All protests must be resolved before the application can be considered for approval. If the protest(s) cannot be resolved voluntarily, the Department will conduct a conference and/or hearing on the matter.

If the application is not protested, the Department will process your application and notify you of any action taken on the application. If your application is approved, the Department will send you a copy of the permit.

Please contact this office if you have any questions regarding the application.

Sincerely,

Tammy Alleman
Administrative Assistant
