Subject: RE: Water Right transfers 81963 and 81964 Request for additional information

Jim,

IDWR will place a 30 day hold on these to await responses/applications prior to taking action. Please note that amended applications may and new applications will have to be advertised. This might invite additional protests upon advertisement.

Thank you.

Clay

Clay,

I made a settlement proposal to IDFG on October 25 to resolve its protests to these applications as well as application for permit 73-12175. We have not yet heard back from them. We hoped to resolve the protests first and then submit the additional information and applications. I ask that IDWR not take any action to void these applications until we complete our settlement efforts with IDFG.

Thank you.

Jim
