Dear Applicant:

The Department of Water Resources (Department) received feedback from the Watermasters after your meeting with them to address concerns about separate systems not identified on applications for Transfer 81963 and 81964 on the above mentioned water rights on October 4, 2018. The Department was informed by the watermaster that you intended to submit amended applications identifying the separate conveyance systems.

The Department also has not received a response to a request for additional information sent September 18, 2018. The following items were requested and have not been received by the Department.

- **Supply maps of the conveyance and distribution systems for transfers 81963 and 81964. Make sure it shows how the water is being conveyed from all sources to the pivot systems (ditches or pipes). Include groundwater wells and connections between the systems. Ensure that you provide the current system and the proposed system maps. Include a map of the conveyance and distribution systems of the Pines ditch, point of diversion P19 in NESW S2, T12N, R23E.**
- **Supply a map of lands irrigated via ditch, flood, groundwater, pivot and sprinkler irrigation systems within the last five years.**

As of the date of this letter, the department has not received any amended applications or the requested information from you on these applications.

Please provide the department with any changes to the applications with the requested information within 14 days. If the requested information is not received by the department

within 14 days, the Department will issue a preliminary order to void the application in accordance with Idaho Code § 42-204 and IDAPA 37.03.08 Rule 35.01 f.

If you have any questions on this matter, please contact me at (208) 287-4910.

Sincerely,
