Narrative: The Department received this application on October 5, 2018. The applicant wishes to place the entirety of all rights in the Bank for the 2019 season. Water rights from the City of Hailey overlap these rights. The water from these rights and the City of Hailey's ground water rights have not been co-mingled. These rights were decreed in 2011 and placed in the Bank for the 2017 & 2018 seasons. Forfeiture is not an issue. Hiawatha Canal requires a 20% holdback for conveyance losses. These rights are currently within WD 37.

Re: *Blaine County School District (37-183A, 37-298C, 37-334E, 37-5778X and 37-21114)*

Dear Sir or Madam:

The purpose of this letter is to respond generally to water rights being leased to the Water Bank, which are conveyed in the Hiawatha Canal ("Canal") by the Hiawatha Canal Company, a.k.a. The Hiawatha Canal Water Users Association of Lateral or Laterals ("Canal Company"). For the reasons outlined below and on the conditions requested, the Canal has no objection to the aforementioned water rights being placed into the Water Bank.

The Hiawatha Canal Company is concerned about the amount of water being removed from the Canal and placed in the Water Bank by various water right holders. Generally, at this time, the Canal Company does not object to water rights conveyed in the Hiawatha Canal being placed in the Water Bank provided that if the water rights are leased to parties outside of the Canal, then the Water Bank should require twenty percent (20%) of the right be left in the Canal as conveyance loss. I suggest that the Department place a condition on the leases to this effect. Providing you some historical perspective, the Canal Company filed for mitigation (conveyance loss) rights in the adjudication for rights that had been forfeited or abandoned out of the Canal. The Department agreed that the conveyance loss in the Canal was twenty-percent (20%), and therefore, entered recommendations accordingly. See e.g., water rights 37-22630, 37-22631, 37-22632 and 37-22633.

This conveyance has been recognized by the Idaho Department of Water Resources in similar transfers. Leaving twenty-percent (20%) of the leased rights in the Canal will insure that all rights in the Canal continue to be delivered without injury to water right holders in the Canal. As a condition of being leased, the Canal Company requests

1. The Canal Company does not presently object to the aforementioned water rights being placed in the Water Bank, provided that twenty-percent (20%) of the right is left in the Canal as conveyance loss; and
2. The Canal Company would like to be notified if the water rights are eventually released from the Water Bank, or if the Water Rights are being leased again to the Water Bank after the expiration of the lease period.

Thank you in advance for responding to this letter and addressing our concerns. If you have any questions, please do not hesitate to call me.

Sincerely,

HIAWATHA CANAL COMPANY
